

Veritable Aviation Unveils an Expanded Website Selection of PMA and TSO Parts to Address Rising Customer Demand

ASAP Semiconductor expands the selection of PMA and TSO parts offered through Veritable Aviation in a continued effort to meet customer needs.

ANAHEIM, CALIFORNIA, UNITED STATES, May 17, 2024

/EINPresswire.com/ -- Veritable

Aviation, a leading parts distribution website owned and operated by ASAP Semiconductor, is proud to announce the unveiling of its expanded selection

of Parts Manufacturer Approval (PMA) and [Technical Standard Order \(TSO\) parts](#). This strategic expansion comes in response to the rising demand from customers across the industry for high-quality aviation components at a cost-effective price.

“

Our expanded selection of PMA and TSO parts on Veritable Aviation underscores our commitment to meeting rising customer demand for quality aviation components.”

Joe Faruqui

Catering to various aircraft operations, the enhanced website now features an extensive selection of PMA and TSO parts that range from aircraft instrument parts to aviation electronic and electrical parts. Through continual effort to expand upon offerings based on monitored market trends and rising requirements, ASAP Semiconductor aims to develop Veritable Aviation into a platform that provides customers with a comprehensive, one-stop solution for aviation part needs.

Stocking a [diverse selection of PMA](#) and TSO parts,

Veritable Aviation ensures that customers have access to products that meet rigorous industry standards and regulations. PMA parts, authorized by the Federal Aviation Administration (FAA), undergo stringent testing and approval processes to ensure they meet or exceed the performance and safety requirements of original equipment manufacturer (OEM) parts. Similarly, TSO parts are those that adhere to FAA-established standards for design, production,

and performance. These parts are essential for maintaining the airworthiness of aircraft and are trusted by aviation professionals worldwide.

Veritable Aviation's expanded selection of PMA and TSO parts can be found on a number of curated catalogs featured on the website, including those that allow one to browse parts by ATA (Air Transport Association) chapters,

ensuring one can easily navigate and find the specific components they need for their aircraft maintenance and repair operations. The website also features a lookup tool with various filters included for narrowing down specific items of interest.

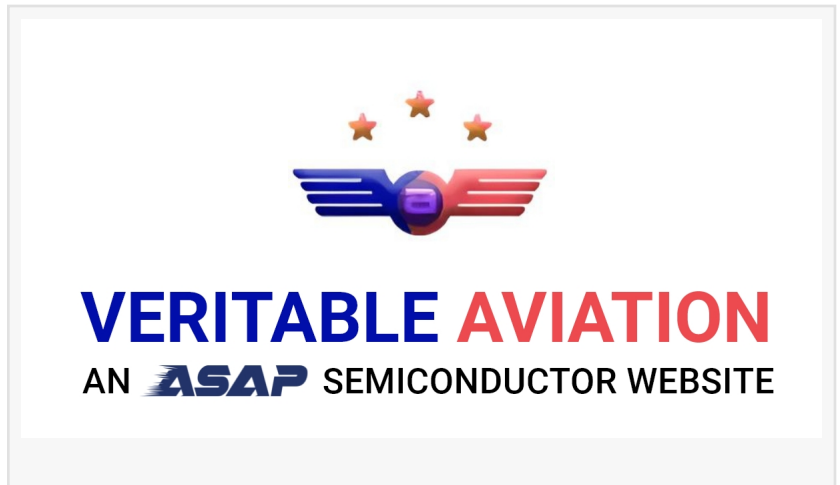

As part of ASAP Semiconductor's commitment to excellence, Veritable Aviation upholds the highest standards of quality and reliability. For example, all PMA and TSO parts offered through the website undergo thorough inspection and testing as necessary to ensure they meet the stringent requirements of the aerospace industry. Additionally, Veritable Aviation prioritizes transparency and traceability, providing customers with detailed product documentation and certifications to verify the authenticity and quality of each component.

With its expanded selection of PMA and TSO parts and a continued commitment to increasing offerings, Veritable Aviation reaffirms its position as a trusted partner for aviation professionals worldwide. Whether customers are conducting routine maintenance or addressing critical repairs, Veritable Aviation stands ready to meet their needs with a comprehensive range of high-quality aviation components.
