

Celiveo Introduces Celiveo 365 High Security Cloud Print SaaS for Enhanced Document Protection in Corporate Environments

Celiveo releases Celiveo 365 High Security Cloud Print management SaaS, a cost-effective and efficient way to protect printers, sensitive documents and data.

MERIDIAN, USA, June 2, 2024 /EINPresswire.com/ -- Celiveo Introduces Celiveo 365 High Security [Cloud Print](#) SaaS for Enhanced Document Protection in Corporate Environments

Celiveo, a leading and ISO-27001:2002 company in cybersecurity solutions for printers and documents management, has announced the release of Celiveo 365 High Security Cloud Print SaaS. This innovative solution offers a cost-effective and efficient way for corporations to protect their printers, sensitive documents, and data. It is multi-region, OS-less, Elastic, CREST pen-tested and built on Zero-Trust-Access.

Printing is the weakest link in corporate security, with network printing it is easy for a server administrator to read another user's print jobs from his desk. With the increasing number of cyber threats and data breaches, companies are constantly looking for ways to enhance their security measures. Celiveo 365 is a genuine Software-as-a-Service (SaaS) offering on Azure PaaS, eliminating the need for on-premises software, servers, or gateways. This not only reduces the cost of implementation but also ensures a seamless and hassle-free experience for users with corporate and mobile print capabilities. It is fully integrated with Microsoft 365, Microsoft [Universal Print](#) and Azure for extremely fast deployment with minimal administration cost.

Celiveo prioritizes the security of mobile and Cloud printing through its Celiveo Zero Trust Access Print Security framework, anchored on a robust ECC-P256 certificates forest architecture vetting all connections. "At Celiveo, we prioritize the security of printing through our Celiveo Zero Trust Access Print Security framework" said Jean-Francois d'Estalens, CEO of Celiveo. "With Celiveo 365 we aim to provide corporations with a cost-effective and efficient way to protect their printers, documents, and data through the Cloud. Our team has worked tirelessly to develop a comprehensive solution that meets the highest standards of public Cloud security and reliability.

10 Reasons Why Cloud-Based Printing Is Revolutionizing the Modern Workplace

- Facilitates printing from any location, boosting flexibility for remote and hybrid work.
- Simplifies IT management by eliminating the need for installing printer drivers on devices.
- Lowers infrastructure costs by reducing reliance on print servers.
- Offers versatility by supporting printers from any IPP 2.0 compatible brand.
- Boosts cybersecurity with features like certificate-based encryption and Microsoft Entra ID SSO integration.
- Easily scales with organizational growth without additional hardware.
- Streamlines print operations, reducing paper waste and energy consumption.
- Ensures compliance with regulations and policies through detailed print management and tracking features.
- Optimizes print management, lowering overall printing costs.
- Enhances productivity and user satisfaction by removing traditional printing barriers.

Reasons why Cloud print is revolutionizing the modern corporate workspace

“

When print jobs are sent from Win 10, Win 11, MacOS PC, smartphones, tablets, or Chromebooks using Celiveo 365 or Microsoft Universal Print, they undergo full AES256 encryption on top of TLS 1.2 until they reach the Cloud for processing. Celiveo Zero Trust Access and Entra ID ensure secure authentication and transmission of print jobs.

Celiveo 365 also offers a cost-effective print solution by eliminating the need for on-premises software, servers or gateways. As a genuine Software-as-a-Service (SaaS) offering on Azure PaaS, it operates without requiring server maintenance, licensing, or additional costs for cloud traffic or storage. The subscription model follows a simple per-user, per-month, or pay-as-you-go structure, similar to Microsoft 365, ensuring predictability and ease of management. Moreover, it supports a wide range of network printers, ensuring compatibility and protecting your investment.

Celiveo365 seamlessly integrates with Microsoft Universal Print, allowing a no-driver, no-agent architecture on Win10 and Win11 ensuring the lowest possible TCO. In terms of reliability and accessibility, Celiveo 365 stands out as a Genuine SaaS solution. Being deeply integrated within Azure, it benefits from the platform's high availability, elasticity, and robust security features. This ensures a seamless and reliable printing experience for users.

Security and confidentiality are paramount with Celiveo 365, built upon a Zero-Trust-Access architecture. Communication is treated as hostile by default, the Celiveo 365 certificate-based vetting process controls all connections with the highest security. Furthermore Celiveo is ISO 27001:2022-certified and the complete Celiveo 365 infrastructure is audited daily for compliance with the stringent security standards such as ISO 27001:2013, NIST SP 800 171 R2, FedRAMP M/H, NIST SP 800 53 R5, HIPAA HITRUST, CIS Azure Foundations v1.4.0, SOC TSP, SOC 2, New Zealand ISM Restricted, Microsoft cloud security benchmark, Canada Federal PBMM, UKO and UK NHS, Australian Government ISM PROTECTED, New Zealand ISM Restricted v3. Celiveo 365 does not rely on VPNs, instead employing ECC certificate chains and TLS mutual

10 Key Features and Advantages of Using Cloud-Based Printing Solutions

- 01** Eliminates in-house print management costs, reducing overhead expenses.
- 02** Enables driverless printing, removing the need for individual PC drivers.
- 03** Supports remote printing, enhancing productivity for mobile workers.
- 04** Integrates with cloud services for mobile print and cloud storage solutions.
- 05** Offers a scalable SaaS model, adjusting costs and bandwidth as needed.
- 06** Prioritizes security with Google encryption and entra-ID SSO support.
- 07** Designed as a Zero-Trust Access, OS-less Cloud application for robustness.
- 08** Get new features automatically thanks to SaaS.
- 09** Differentiates with unique functionalities not found in competitor solutions.
- 10** Emphasizes cost-effectiveness, security, and efficiency in cloud-based printing operations.

authentication/encryption to protect endpoints. Document security is provided by Celiveo 365 through compression and double encryption with AES256. Furthermore, its architecture, devoid of VMs, PC or server-based software, ensures uninterrupted service even during OS security updates, as Azure manages security updates transparently.

Celiveo 365 is now available for subscription and can be easily integrated into existing Microsoft 365 corporate environments. With its advanced Cloud security features and user-friendly interface, it is set to revolutionize the way

corporations print and scan their documents. For more information, visit the Celiveo 365 website at www.celiveo365.com or contact their sales team.

About Celiveo:

Celiveo, ISO27001:2022 and ISO 9001:2015 certified, is a printer brand agnostic and a strongly innovative company developing cyber security solutions in the Cloud to protect printers and documents, reduce cost and right-size printers and MFP fleets in mid-size to large corporations. Many large global companies, governments, hospitals rely daily on Celiveo 365 to ensure documents and digital information are not misappropriated, accounted for and end-users do not waste time looking for working printer or for their documents. The global presence of Celiveo allows us to help resellers and integrator to deliver the best possible output management solution in all regions, with local or regional support.
