

KwickPOS Announces Partnership with MagTek and Magensa to Deliver Secure Mobile POS Payment and Gateway Services

The KwickPOS handheld point-of-sale system, fully integrated with MagTek's tDynamo (Gen II) encryption and tokenization secure card reader authenticator.

SPRING, TX, UNITED STATES, June 5, 2024 /EINPresswire.com/ -- In partnership with [MagTek](#), a global leader in security technology and digital

“

The ability to offer our customers more ways to pay in a small handheld device expands our target audience with the integration with the tDynamo (Gen II) and Magensa Services.”

Ming Ye, COO of KwickPOS

transactions, we're proud to offer a secure and versatile solution for handheld payments. Our [KwickPOS](#) system, with the tDynamo (Gen II), provides secure card authentication for magnetic stripe cards, EMV Contactless, EMV Contact Chip, and NFC mobile wallet transactions (Apple Pay, Google Pay) to streamline payments in pay-at-the-table and line-busting environments.

At KwickPOS, we're thrilled to unveil our latest innovation: the KwickPOS [handheld point-of-sale system](#), fully integrated with MagTek's advanced tDynamo (Gen II)

encryption and tokenization secure card reader authenticator. This exciting collaboration pairs our restaurant management system with Magensa Gateway Services, ensuring the highest level of security and flexibility.

tDynamo (Gen II) meets L3 certification standards, leveraging the robust Magensa Gateway for swift integration. Built with MagneSafe Security Architecture, it secures transactions with triple DEA encryption, DUKPT key management, and tokenization. Our partnership ensures all data remains secure and PCI-compliant, reducing PCI scope while enhancing protection.

Ming Ye, COO of KwickPOS, shared, “The ability to offer our customers more ways to pay in a small handheld device expands our target audience. The integration with the tDynamo (Gen II) and Magensa Services allows us to seamlessly adapt and grow with MagTek hardware.”

The Magensa Payment Protection Gateway services accelerate development by offering robust tools and L3 (EMV) certifications for card-present, mobile, and e-commerce transactions. Developers can harness flexible modular services for Apple Pay, Google Pay, payment links, QR

codes, PayPal, Venmo, and tokenization options.

Our KwickPOS system provides efficient ordering and pay-at-the-table solutions to enhance customer satisfaction and operational efficiency. Merchants can provide digital receipts via text or email, or print them with a receipt printer.

Andy Deignan, President and CEO of MagTek, expressed, "We're excited to see KwickPOS adopt MagTek hardware and integrate it with Magensa Services. The tDynamo (Gen II) provides an adaptable full-service solution."

Our full solution is available now, including the tDynamo (Gen II), an iPad device, an OtterBox Adaptor, and the KwickPOS application. For more details, reach out to us at sales@kwickpos.com.

Learn more about the tDynamo (Gen II) by contacting retail.solutions@magtek.com or visit www.magtek.com. Discover how KwickPOS can revolutionize your business at www.kwickpos.com.
