“

At Excite Medical, we are dedicated to empowering chiropractors with advanced tools and technologies that redefine the standards of care. The DRX9000 represents a shift in non-invasive spine treatment”

*Saleem Musallam*

Excite Medical's presence at The FCA's SE Regional Convention signifies a commitment to fostering innovation and collaboration within the chiropractic community. The DRX9000 by Excite Medical is the world's most advanced non-surgical spinal decompression machine, available in chiropractic clinics throughout the United States and Canada.

The DRX9000, a revolutionary non-surgical solution, has received FDA clearance for the treatment of patients suffering from lower back pain and sciatica caused by herniated discs, bulging discs, degenerative disc disease,

and posterior facet syndrome. Its efficacy in providing relief and restoring function has garnered widespread acclaim within the medical field.

During the convention, Excite Medical will showcase the DRX9000, offering attendees a firsthand glimpse into its transformative capabilities. Through live demonstrations and interactive sessions, participants will have the opportunity to witness how this innovative device can revolutionize chiropractic practice and enhance patient outcomes.

“We are thrilled to participate in The SE Regional Chiropractic Convention and engage with esteemed professionals from across the country,” says [Saleem Musallam](#), CEO of Excite Medical. “At Excite Medical, we are dedicated to empowering chiropractors with advanced tools and technologies that redefine the standards of care. The DRX9000 represents a shift in non-invasive spine treatment, and we are eager to demonstrate its exceptional benefits at the convention.”

Excite Medical extends a warm invitation to all convention attendees to visit their booth and discover the transformative potential of the DRX9000 in revolutionizing chiropractic care.
