BIRMINGHAM , ALABAMA , USA, June 17, 2024 /EINPresswire.com/ -- The Alabama Mesothelioma Victims Center is appealing to a current or former worker at the Browns Ferry, or the Joseph M. Farley Nuclear Power Plants in Alabama who have just been diagnosed with mesothelioma or asbestos exposure lung cancer to please call the Birmingham based Environmental Litigation group about financial compensation at 866-714-6466. The lawyers at the Birmingham-based Environmental Litigation Group have decades-worth of experience assisting people exactly like this and they get remarkable compensation results for their clients.

The group says, "Alabama ranks number 5 in the nation when it comes to nuclear power generation. Browns Ferry ranks number two in the nation when it comes to power generation by a single nuclear power plant. The workers at these types of facilities prior to the mid-1980s probably had routine exposure to asbestos. Mesothelioma and asbestos exposure lung cancer are very common for nuclear or conventional power plants workers. The workers that maintained or repaired these types of facilities probably had daily exposure to asbestos-again

before the mid-1980s. Mesothelioma and or asbestos exposure lung cancer might take four or five decades to develop.

"If your husband or dad is a power plant worker with mesothelioma or asbestos exposure lung cancer anywhere in Alabama, please call the Birmingham based Environmental Litigation Group anytime at 866-714-6466. The lawyers at Alabama based Environmental Litigation Group are national compensation experts for victims of mesothelioma or asbestos exposure lung cancer."
