

My Care Labs Expands Testing Services to Include UTI, STI, Wound Culture, Respiratory Pathogen, and ABR Panels

My Care Labs Announces New Testing Services with Rapid 24-Hour Results, Catering to Nursing Homes and Elderly Care Facilities Across California

FREMONT, CA, UNITED STATES, June 17, 2024 /EINPresswire.com/ -- [My Care Labs](#), a leader in diagnostic laboratory services, is excited to announce the upcoming launch of several new testing services. Currently in the validation phase, these new tests include UTI (Urinary Tract Infection) testing, STI (Sexually Transmitted Infection) testing, wound culture testing, respiratory pathogen panel, and the Antibiotic Resistance (ABR) panel. This expansion demonstrates My Care Labs' commitment to providing comprehensive, timely, and compassionate care to [nursing homes](#), care homes, and hospice facilities throughout California.

In an industry where fast and accurate results are critical, My Care Labs stands out by offering 24-hour turnaround times for test results. This rapid response capability is essential for the effective management of health conditions, particularly among vulnerable populations such as the elderly.

"Our mission is to address the significant gap in resources available to nursing homes and related facilities," said Harvey Singh, CEO of My Care Labs.

The elderly population is particularly susceptible to conditions such as UTIs, STIs, respiratory infections, and wounds that require meticulous care and prompt diagnosis. These health issues, if not identified and treated on time, can lead to severe complications. By introducing these new tests, My Care Labs aims to enhance the quality of care provided to this at-risk group, ensuring timely intervention and better health outcomes.

What sets My Care Labs apart from many other laboratories is their wide acceptance of all insurance plans, including Medicare and Medi-Cal. Importantly, My Care Labs strictly bills the insurance providers, ensuring that patients and facilities are never burdened with unexpected costs. This policy is part of their commitment to making essential diagnostic services accessible and affordable.

In addition to their diagnostic capabilities, My Care Labs prides itself on having a proactive and caring staff dedicated to providing exceptional service. Their team understands the importance

of empathy and efficiency in healthcare, striving to support patients and healthcare providers with seamless and compassionate service.

My Care Labs currently offers wellness blood testing services across numerous nursing homes, care homes, and hospice companies throughout California. As they expand their testing portfolio, they invite healthcare facilities and professionals to reach out and learn more about their current and future services.

About My Care Labs

My Care Labs is a premier diagnostic laboratory service provider dedicated to delivering high-quality, rapid, and reliable testing solutions. Their goal is to bridge the gap in healthcare resources for nursing homes and related facilities, ensuring that every patient receives the care they deserve. With a commitment to innovation, empathy, and accessibility, My Care Labs continues to lead the way in diagnostic excellence.
