

Driving Factors in the Dextrose Market: An In-depth Analysis 2024-2033

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UK, June 17, 2024 /EINPresswire.com/ -- The global dextrose market has shown robust growth, projected to increase from \$5.8 billion in 2023 to \$6.29

billion in 2024 at a compound annual growth rate (CAGR) of 8.5%. This growth is driven by the expansion of the food and beverage industry, the pharmaceutical sector, increased consumption of convenience foods, the rise of sports and energy drinks, and the growing demand for sugar substitutes.

Rising Demand in Various Industries Drives Market Growth

The dextrose market is set to experience continued strong growth, expected to reach \$8.49 billion by 2028 at a CAGR of 7.8%. Key factors contributing to this growth include rising demand in the confectionery industry, the expanding functional food and beverage market, increased adoption in animal feed, a surge in pharmaceutical applications, and the expansion of the biofuel industry. Additionally, major

trends include advancements in biotechnology, innovations in clean-label formulations, plant-based dextrose, customized dextrose solutions, and strategic collaborations for product innovation.
