

Irritable Bowel Syndrome (IBS) Treatment Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company's Irritable Bowel Syndrome (IBS) Treatment Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LANDON, GREATER LANDON, UK, June 17, 2024 /EINPresswire.com/ -- The irritable bowel syndrome (IBS) treatment market is projected to grow from \$2.5 billion in 2023 to \$2.77 billion in 2024, at a CAGR of 10.8%. The market is anticipated to reach \$4.29 billion by 2028, driven by advancements in patient-centric healthcare models and digital health solutions.

Aging Population Drives Market Growth

The irritable bowel syndrome (ibs) treatment market size is expected to see rapid growth in the next few years. It will grow to \$4.29 billion in 2028 at a compound annual growth rate (CAGR) of 11.6%."

The Business Research Company

The aging population is a significant factor contributing to the growth of the IBS treatment market. With a growing proportion of elderly individuals, there is an increased need for managing gastrointestinal symptoms associated with aging. According to the World Health Organization, the population of people aged 60 years and older is expected to double by 2050, reaching 2.1 billion. This demographic shift is driving the demand for effective IBS treatments to enhance digestive health and overall well-being.
