

Dental Inlays And Onlays Global Market Report 2024

The Business Research Company's Dental Inlays And Onlays Global Market Report 2024 – Market Size, Trends, And Forecast 2024-2033

LONDON, GREATER LONDON, UK, June 19, 2024 /EINPresswire.com/ --

The global market for dental inlays and onlays has experienced rapid growth recently, expanding from \$3.13 billion in 2023 to an estimated \$3.46 billion in 2024, achieving a compound annual growth rate (CAGR) of 10.7%. This growth trend reflects increased adoption due to auxiliary support, minimally invasive dentistry practices, aesthetic considerations, evidence-based dentistry principles, and educational initiatives.

Anticipated Expansion to \$5.25 Billion by 2028
Forecasted to reach \$5.25 billion by 2028 at a CAGR of 11.0%, the dental inlays and onlays market is poised for continued rapid growth. Factors contributing to this expansion include advancements in regenerative dentistry solutions, heightened consumer awareness, a rising demand for cosmetic dentistry, an increase in dental practices, and a growing number of dental practitioners.

Key trends expected in the forecast period encompass nanotechnology integration, the 3D printing revolution, smart materials and sensors, regenerative dentistry approaches, and personalized treatment planning.

Dental Diseases Propel Market Growth

The escalating prevalence of dental diseases serves as a significant driver propelling the growth of the dental inlays and onlays market. Dental diseases encompass a range of conditions

affecting the teeth, gums, and surrounding oral structures, leading to pain, discomfort, and potential complications without timely intervention. Contributing factors include poor oral hygiene, unhealthy dietary habits, tobacco use, alcohol consumption, and an aging population. Restorative treatments such as dental inlays and onlays offer conservative yet effective solutions for restoring teeth affected by decay, damage, or other dental issues.

Major Players and Innovations

Leading companies driving innovation in the dental inlays and onlays market include 3M, Dentsply Sirona Inc., Planmeca Oy Group, and Ivoclar Vivadent AG. These companies are actively engaged in developing advanced technologies to enhance the durability, aesthetics, and functionality of dental restorations. Notably, innovations such as digital light processing (DLP) technology have revolutionized the fabrication of dental inlays and onlays by digitizing workflows, improving precision, enabling customization, expanding material options, and enhancing overall efficiency in dental practices.
