

# Congenital Heart Disease (CHD) Market Size, Share, Revenue, Trends And Drivers For 2024-2033

*The Business Research Company's  
Congenital Heart Disease (CHD) Global  
Market Report 2024 – Market Size,  
Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK, June 19, 2024 /EINPresswire.com/ -- The [congenital heart disease \(CHD\) market size](#) has grown strongly in recent years.

It will grow from \$4.03 billion in 2023 to

\$4.42 billion in 2024 at a compound annual growth rate (CAGR) of 9.7%. The growth in the historic period can be attributed to the increased prevalence of risk factors such as obesity and smoking, improved diagnostic technologies, expanded geriatric population, heightened awareness campaigns, enhanced reimbursement policies, and increased investment in research and development.

## Maternal Diabetes Driving Congenital Heart Disease Market Growth

The increase in maternal diabetes cases is expected to propel the growth of the congenital heart disease (CHD) market going forward. Maternal diabetes, or gestational diabetes mellitus (GDM),

The Business  
Research Company

Congenital Heart Disease (CHD) Market Size, Share,  
Revenue, Trends And Drivers For 2024-2033

refers to diabetes that arises during pregnancy in women who did not have diabetes before conception. Maternal diabetes is caused by changes in lifestyle, including sedentary behavior and unhealthy dietary habits, and an overall rise in obesity rates among women of childbearing age. Maternal diabetes can lead to congenital heart disease (CHD) in infants due to the high blood sugar levels affecting fetal heart development. The elevated glucose levels in the mother's blood can disrupt the normal development of the baby's heart, increasing the risk of CHD.

#### Major Players and Market Trends

Major companies operating in the congenital heart disease (CHD) market are Pfizer Inc., AstraZeneca Plc, Abbott Laboratories, Novartis AG, Medtronic, Siemens Healthineers, Philips Healthcare, Roche Diagnostics International Ltd., Boston Scientific Corp., Laboratory Corporation of America Holdings (LabCorp), Terumo Corporation, Mindray Medical International Limited, Canon Medical Systems Corporation, Masimo Corporation, Neusoft Corp., Carestream Health, Midmark Corporation, Contec Medical Systems, Randox Laboratories Ltd., Schiller AG, BPL Medical Technologies, Compumedics Limited, Biocare Medical, Bionet America Inc., Nasan Medical Electronics Pvt Ltd.

#### Innovative Non-Surgical Heart Valves Transforming Congenital Heart Disease Treatment

Major companies operating in the congenital heart disease market are developing non-surgical heart valves to improve patient outcomes and quality of life. Non-surgical heart valves, or transcatheter, are medical devices that treat heart valve diseases without needing traditional open-heart surgery.

#### Segments:

- By Type: Heart Valve Defects, Heart Wall Defects, Blood Vessel Defects, Other Types
