

DuoFlex: Transforming Workspaces with a Single-Cable Solution for Today's Professionals

Introducing DuoFlex, World's First 4K Versatile Dual-Screen Display to Streamline Workflows

COVINA, CALIFORNIA, UNITED STATES, June 25, 2024 /EINPresswire.com/ -- [DuoFlex](#) by [HalmaPixel](#)

Introducing DuoFlex, a 4K dual-screen designed to transform workspaces into versatile and efficient environments. This product offers flexibility, making it suitable for professionals seeking a seamless and customizable multi-screen experience. DuoFlex allows users to optimize workflows without compromising on cost or quality.

Experience Versatility with Trio of Resolutions

DuoFlex dual 24" and 27" displays offer three resolution options: 4K, 2K, and 1080P. Starting at \$349, DuoFlex provides visual performance tailored to individual needs. Its flexible design integrates seamlessly with multiple DuoFlex units or other devices, creating a customized multi-screen setup for various professional requirements. Whether in need of 4K for detailed graphic design, 2K for extensive spreadsheets, or 1080P for everyday tasks, DuoFlex adapts accordingly.

Unlock full creative potential with the optional touch-screen feature and DuoFlex Pencil, making digital creation both enjoyable and precise. This combination ensures that every stroke and gesture feels natural, providing an unmatched level of control and accuracy for all creative endeavors. The optional touch-screen feature and DuoFlex Pencil enhance digital creation, ensuring that every stroke and gesture feels natural, providing control and accuracy for all creative endeavors.

Maximize Productivity with Multi-Angle Display Options

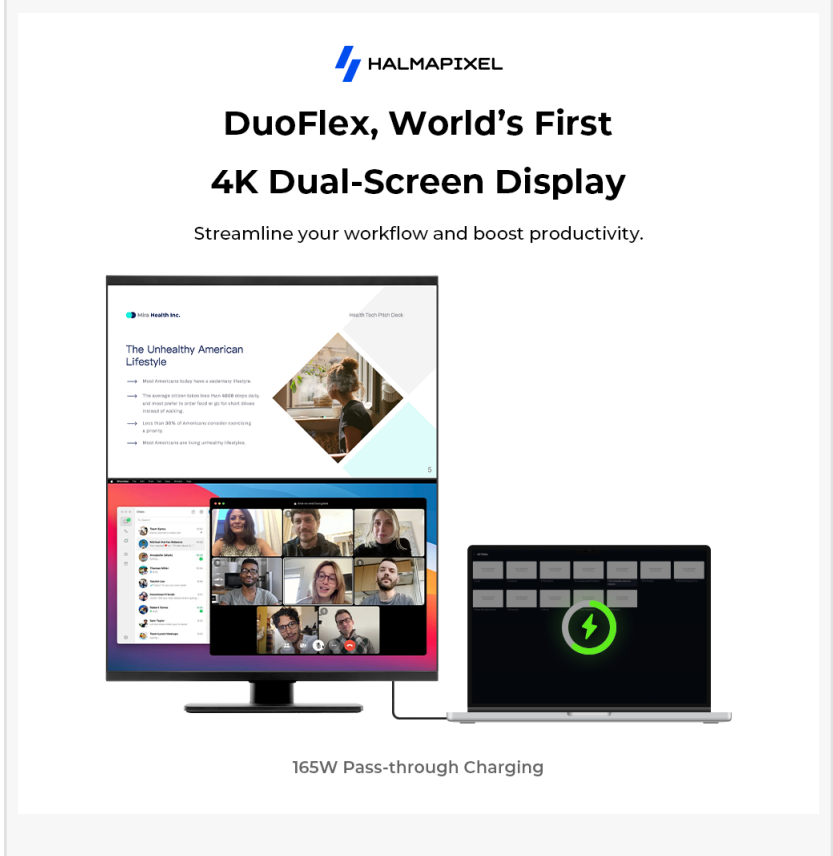

Static, fixed-screen setups can limit productivity. DuoFlex offers enhanced flexibility with its 360° rotational case and multi-angle display. Screens can be stacked or aligned to match various workflows, creating a personalized and dynamic workspace. The stacked configuration suits vertical multitasking, providing a clear view of lengthy documents or coding projects. The aligned setup offers a panoramic view suitable for design work, video editing, and detailed data analysis. DuoFlex meets diverse professional needs, enhancing productivity and collaboration.

Seamless Workflow with Instant One-Click Waterfall

DuoFlex supports efficiency and versatility with its one-click waterfall display feature, controlled by a smart touch bar. Users can switch between a unified display and independent screens with a single touch. The unified waterfall display mode suits tasks requiring an expansive view, such as graphic design or large-scale data analysis, providing a cohesive experience. The independent screen mode supports multitasking, allowing the management of different applications side-by-side without interruption.

Power Up with 165W Reverse Charging & Connectivity

DuoFlex addresses the hassle of multiple cables and limited power sources by providing 165W pass-through power and a stable reverse charging feature to keep devices powered. DuoFlex

ensures devices remain charged and ready. Additionally, the 7-in-1 dock expands connectivity options, offering a comprehensive all-in-one solution. This design helps maintain a tidy desk while boosting functionality and performance, allowing users to stay connected without distractions.
