

Simplified Purchasing Announces Its Dedication to Meeting Rising Demand for Military Standard Parts, PMA Parts, and More

ASAP Semiconductor announces continued commitment to upholding Simplified Purchasing as a premier source for standardized parts for aerospace and defense.

ANAHEIM, CALIFORNIA, UNITED STATES, June 26, 2024

/EINPresswire.com/ -- Simplified Purchasing, a website owned and operated by ASAP Semiconductor, is pleased to announce an unwavering

dedication to addressing the growing demand for [military standard \(MS\) parts](#), PMA parts, and other essential components that meet specific regulations or specifications upheld by governing bodies. With an ever-expanding inventory and a robust commitment to quality and customer satisfaction, Simplified Purchasing is set to enhance its role as a leading marketplace for critical parts across various industries.

“

With our robust selection of aerospace and defense parts, Simplified Purchasing is poised to meet both current demands and anticipate future industry needs.”

Joe Faruqui

The demand for military standard (MS) parts and military NSN parts has been on the rise, driven by the need for reliable and durable components in defense and aerospace applications. ASAP Semiconductor is responding to this demand by expanding its selection of military standard parts offered on Simplified Purchasing, ensuring that customers have access to high-quality items that meet

stringent military specifications. These parts are crucial for maintaining and repairing military equipment and vehicles, and their availability through Simplified Purchasing streamlines the procurement process for defense contractors and government agencies alike.

In addition to MS offerings, Simplified Purchasing is also bolstering its inventory of [Technical Standard Order \(TSO\) parts](#). These components are vital for ensuring the safety and

performance of many aircraft, as they meet rigorous standards set by aviation authorities for airworthiness. By offering a comprehensive range of TSO parts, Simplified Purchasing supports the aviation industry in maintaining the highest levels of safety and compliance.

Parts Manufacturer Approval (PMA) parts are another area where Simplified Purchasing is making

significant strides. These parts are approved by the Federal Aviation Administration (FAA) and are generally used as replacements for original aircraft parts. By providing a diverse selection of PMA parts, Simplified Purchasing helps airlines and maintenance providers reduce costs while maintaining the reliability and safety of their fleets. This commitment to offering cost-effective and high-quality alternatives underscores the website's dedication to serving the needs of the aviation industry.

With over 2 billion product listings and new additions regularly being made, it becomes important to have proper organization and searchability to ease the procurement process. There are many curated catalogs on the website that organize items through various means, such as by [Federal Supply Class \(FSC\)](#) and National Stock Number (NSN). Whether one wishes to search for parts by FSC or other various standardized listing information, the website ensures that customers can quickly find the items they need based on their specific requirements. Similarly, the ability to search for parts by NSN with a provided lookup simplifies the process of identifying and ordering the correct components, particularly for military and government buyers who rely on these standardized numbers for procurement.

ASAP Semiconductor, the sole distributor of parts on Simplified Purchasing, is renowned for its dedication to excellence and customer service. This commitment is reflected in the stringent quality control processes and comprehensive supply-chain management practices that underpin the operations of Simplified Purchasing. By leveraging ASAP Semiconductor's expertise and industry connections, Simplified Purchasing as a website ensures that every part it offers meets the highest standards of quality and reliability.

The expansion of the inventory at Simplified Purchasing is not just about meeting current demand; it is also about anticipating future needs. The dynamic nature of the aerospace and defense industries requires a proactive approach to inventory management. Simplified Purchasing continuously monitors market trends and customer feedback to identify emerging requirements and ensure that its stock remains aligned with the evolving needs of industries. The team further offers services to address the continual or repeat needs of customers, promoting all-encompassing solutions for operations.

Simplified Purchasing
AN **ASAP** SEMICONDUCTOR WEBSITE

In conclusion, Simplified Purchasing's dedication to expanding its selection of military standard parts, PMA parts, TSO parts, and other offerings is a sign of its commitment to meeting the rising demand for high-quality components across various industries. Backed by the expertise and quality assurance of ASAP Semiconductor, Simplified Purchasing is poised to continue its growth as a premier marketplace for critical parts, supporting the needs of the aerospace, defense, and other sectors with excellence and reliability.
