

Construction Design Software Market Set for Strong Growth, Projected to Reach \$14.47 Billion by 2028

The Business Research Company's Construction Design Software Global Market Report 2024 – Market Size, Trends, And Forecast 2024-2033

LONDON, GREATER LONDON, UK, June 28, 2024 /EINPresswire.com/ -- The construction design software market is witnessing robust growth, expected to expand from \$9.68 billion in 2023 to

\$10.57 billion in 2024, marking a CAGR of 9.1%. It will grow to \$14.47 billion in 2028 at a compound annual growth rate (CAGR) of 8.2%. This growth is driven by the adoption of computer-aided design (CAD) software, the complexity of modern construction projects, and the demand for precise design solutions.

Rising Adoption of Building Information Modeling (BIM) Drives Market Growth

The evolution of Building Information Modeling (BIM) is a major driver for the construction design software market. BIM enables enhanced project visualization and management, contributing to its widespread adoption across the architecture, engineering, and construction (AEC) industry. Integration with project management tools

and advancements in hardware capabilities further propel market growth.

Key Players and Technological Advancements

Major companies such as Autodesk Inc., Trimble Inc., and Dassault Systemes S.A. are at the forefront of technological innovation in the construction design software market. For instance, Vectorworks Inc. launched its Vectorworks 2022 product line with enhanced 3D modeling and

BIM workflows, emphasizing improved performance and usability for design professionals.

Market Segments

- Component: Software, Service
- Deployment: On-Premises, Cloud
- Application: Project Management And Scheduling, Project Design, Safety And Reporting, Field Service Management, Cost Accounting, Other Applications
- End User: Architects And Builders, Remodelers, Designers, Other End Users

Regional Insights: Asia-Pacific Leading Growth

Asia-Pacific emerged as the largest region in the construction design software market in 2023, driven by rapid urbanization and infrastructure development. Detailed regional dynamics and growth opportunities are outlined in the comprehensive market report.

[Construction Design Software Global Market Report 2024](#) from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Construction Design Software Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on construction design software market size, construction design software market drivers and trends, construction design software market major players, competitors' revenues, market positioning, and market growth across geographies. The construction design software market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
