Women Tech Council Announces the 2024 Women Tech Awards Finalists

Visionary awards program for women in technology recognizes women leading companies, driving innovation and creating impact

SALT LAKE CITY, UT, UNITED STATES, July 2, 2024 /EINPresswire.com/ -- Women Tech Council (WTC), a national organization focused on the economic impact of women in tech, today announced the finalists for the 2024 Women Tech Awards—the leading awards program for women in technology amplifying talent tied to Silicon Slopes. These finalists are

The 2023 Award Recipients

recognized as some of the most prestigious and emerging technology-focused women for their work driving innovation, creating new technologies, leading technology companies and inspiring the tech community.

> By creating visibility for these women and their work, these awards accelerate their trajectories and elevate women and innovation at all corners and levels of the tech industry and community.”
>
> *Cydni Tetro, co-founder of WTC*

"By creating visibility for these women and their work, these awards accelerate their trajectories and elevate women and innovation at all corners and levels of the tech industry and community," said Cydni Tetro, co-founder of WTC. "It is paramount that we recognize, celebrate and provide visibility to the talent in technology to showcase role models, accelerate the continued shattering of glass ceilings and amplify the impact on innovation women are making.”

The Women Tech Awards has honored and elevated the innovations, leadership and contributions of more than 350 technology-focused women. By doing so, the awards have accelerated their individual careers and pathways, and brought visibility to the invaluable impact of women throughout the tech industry. The Women Tech Awards has also helped inspire thousands of high school girls

and other women into STEM fields. This year's award finalists were selected based on their industry experiences, professional achievements, business leadership, community impact and personal accomplishments. This year's judges represented leaders and innovators from throughout the technology sector.
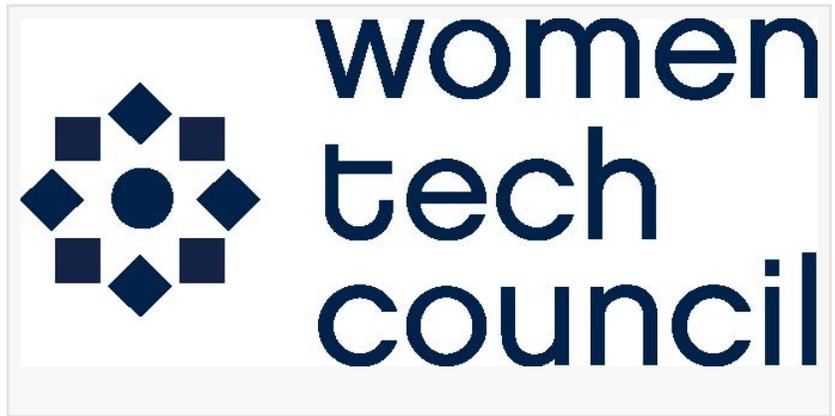

The 2024 Women Tech Award finalists are:

Alexandra V. Passi, PhD, VP Data Science and Analytics, Zartico
