

# RotaWiz Launches Beta Version Offering All-in-One Rostering Solution for NDIS Service Providers

MELBOURNE, VICTORIA, AUSTRALIA,

July 23, 2024 /EINPresswire.com/ --

RotaWiz announces the release of the beta version of its innovative rostering tool aiming to streamline shift management and enhance operational efficiency for healthcare and support providers in Australia. RotaWiz as an all-in-one NDIS rostering solution provider facilitates

effortless shift and care management for support providers.

The beta launch of RotaWiz is a crucial step towards advanced rostering. Our goal is to make it the best platform for NDIS support providers, guided by user insights to meet diverse healthcare needs."

*Shiladitya Ghosh, Co-founder of RotaWiz*

RotaWiz as a carer and client-centric rostering platform offers advanced and powerful features to simplify the complex shift and client management process without back-and-forth communication.

With its beta version release, RotaWiz wants to ensure the effectiveness, accessibility, and performance of its online rostering platform in real-world situations.

RotaWiz offers the following key features to streamline and

manage shifts and deliver top-notch quality care:

**Seamless Shift Management:** The admin can easily create, assign, and manage shifts using RotaWiz fulfilling complete details about the client and carer to deliver the best quality care.

**Documentation:** RotaWiz facilitates document management in the platform itself making it accessible centrally for the admins and carers to deliver result-oriented support without back-and-forth communication.

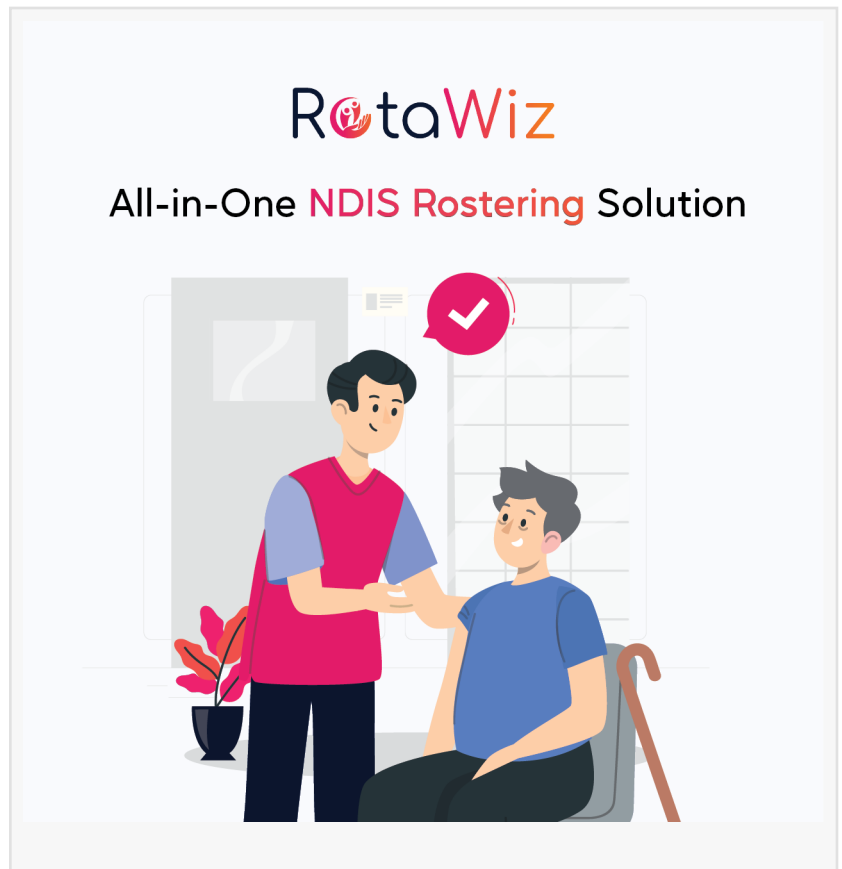

**Unavailability Management:** Users can manage unavailability with RotaWiz easily to avoid missed shifts and shift assignments during their absence.

**Reporting and Analysis:** Track the shifts assigned, created, rejected, completed, and canceled categorically in a centralized dashboard to keep a record of the carer's productivity and work

efficiency.

**Invoicing:** RotaWiz offers an NDIS pricing book-compliant invoicing facility with expense management for accurate and quick invoicing for timely payments. The automated billing process promotes financial transparency and accountability minimizing administrative workload and errors.

**Incident Reporting:** To ensure the safety and security of the client and carer RotaWiz provides an incident-reporting facility on its platform enabling prompt records of any adverse incident with essential details. It helps with quick response and resolution enabling proactive measures to prevent future occurrences for continuous improvement in care services.

The co-founder of RotaWiz said, "The beta launch of the RotaWiz is a crucial step towards the next-gen rostering experience. The direct engagement with our target audience will help us know our product's performance capabilities and get genuine user feedback to make improvements if needed. As we aim to provide the best rostering and shift management platform for support providers in Australia."

"The valuable insights gathered during our beta phase will guide us in refining and optimizing RotaWiz to align with user expectations and requirements. By prioritizing user input, we can create [all-in-one NDIS rostering solutions](#) for care providers that cater to the diverse needs of the support workers and healthcare community. Though we have provided all the required features and functionalities with the current RotaWiz version, we want to evolve time and again to provide the best rostering and shift managing experience to the healthcare industry and carers " he added.
