Driving Factors:

There is an increase in the demand for corrugators machines with the increase in demand for sustainable packaging from industries such as food and beverages, and logistics & supply chain industry. Commonly observed types of corrugator machines in the market are automatic and manual. Out of these, the automatic segment accounted for the highest market share in 2021, owing to its higher productivity, and automated operation. On the basis of production capacity, the market is analyzed across the segments; less than 10 ton, 11-50 ton, 51-100 ton, and more than 100 ton. Among these, the 11-50 ton segment accounted for the highest revenue in 2021.

Furthermore, the market is analyzed with respect to different end users of the corrugators machines; food & beverages, electronics, pharmaceuticals, logistics & shipping, and other industries. Among these, the food and beverages segment registered higher revenue in 2021, owing to increase in demand for eco-friendly packaging from food and beverages

manufacturers, and distributors.

The market is mainly driven by the increasing demand for sustainable packaging materials, the growth of the food & beverages industry, and high demand for corrugated boxes. However, volatility in raw material prices negatively impacts corrugator machine manufacturers, and users; thereby, constraining the growth of the market.
