Increasing Popularity

The non-surgical facelift has seen a significant increase in demand, with more patients opting for this minimally invasive procedure to achieve youthful, refreshed appearances. According to recent industry reports, the popularity of non-surgical cosmetic treatments has been steadily growing, with more people seeking out effective, low-downtime options for facial rejuvenation (Modern Aesthetics) (Carolina Facial Plastics).

“

Our non-surgical facelift offers a safe and efficient way to achieve a youthful, refreshed appearance without the need for invasive surgery”

Quick Recovery Time

One of the standout benefits of Dr. Ourian's non-surgical facelift is the significantly reduced recovery time compared

to traditional facelifts. Patients can expect to resume their daily activities within just one week, making it an ideal option for those with busy lifestyles who still want to achieve noticeable, long-lasting results.

Unmatched Safety

Safety is a top priority at Epione Beverly Hills. Dr. Ourian's non-surgical facelift employs advanced, minimally invasive techniques, including dermal fillers, Botox, and skin-tightening treatments. These methods significantly reduce the risk of complications, ensuring a safer and more comfortable experience for patients.

Remarkable Results

Patients who have undergone the non-surgical facelift at Epione Beverly Hills report significant improvements in skin texture, elasticity, and overall facial symmetry. The procedure effectively addresses common signs of aging, such as sagging skin, fine lines, and loss of volume, delivering results that are both natural-looking and enduring.

"At Epione, we are dedicated to providing our patients with the most advanced and effective treatments available," said Dr. Simon Ourian. "Our non-surgical facelift offers a safe and efficient way to achieve a youthful, refreshed appearance without the need for invasive surgery."
