Imago Rehab's innovative platform allows patients to receive therapy in the comfort of their own homes, eliminating the need for travel and making rehabilitation more accessible. The company's unique approach combines wearable soft robotics with personalized therapy sessions delivered via telehealth. This innovative model of care is showing remarkable results, with patients experiencing significant improvements in motor recovery and daily function.

“I am honored to receive the NBCOT Innovation Award,” said Dr. Nuckols. “This recognition is a testament to the hard work and dedication of the entire Imago Rehab team.”

We are committed to providing the highest-quality care to stroke survivors and helping them achieve their fullest potential.”

Since launching in 2021, Imago Rehab has established operations in 6 states, with an expansion to fifteen states by the end of 2024. Imago Rehab has begun raising a new seed capital round led by Safar Partners, with the company having received the initial tranche of funds on a targeted raise of \$2.5M.
