The US Navy Veterans Mesothelioma Advocate specializes in assisting US Navy Veterans with mesothelioma who were exposed to asbestos in the following ways:

- * They were assigned to a ship's engine room, or a navy submarine's reactor.
- * They were a mechanic, machinist, plumber, electrician, pipefitter, insulator or a repair crew member on a navy ship, or submarine.
- * They were assigned to remain on their ship or submarine

at a US Navy Shipyard for a repair, retrofit, upgrade or an overhaul and they assisted the shipyard workers.

* They were assigned to a navy ship or submarine that was being decommissioned and they had to work with the shipyard workers or salvage crews in removing equipment or parts of the ship.

Suggestions from the US Navy Veterans Mesothelioma Advocate for Veterans with mesothelioma nationwide on how to increase potential financial compensation:

"Do you recall the specifics of how you were exposed to asbestos at work, in the military or both-and when this exposure occurred? This is incredibly important information.

"Do you recall the names of shipmates-coworkers who might have witnessed your exposure to asbestos?"

"Did you have more than one job in the navy-armed forces where you might have been exposed to asbestos?"

"Do your medical records include a biopsy that confirms the mesothelioma or asbestos exposure lung cancer?"

"Has your loved one's doctor told you that mesothelioma is a distinct possibility-but because they are so sick-weak-a biopsy to confirm the mesothelioma is not possible? If this is your loved one, please call us at 866-714-6466."

Important Note: "We are advocates for Navy Veterans who have developed mesothelioma anywhere in the USA-and as we say all the time we want these people to receive the best possible financial compensation results.
