

# Penta Security Enhances Asian Market Presence through Strategic Partnership with Version 2 Digital

*Penta Security agreed its strategic partnership with Version 2 Digital. This aims to strengthen Penta Security's presence in the Asian market.*

SEOUL, SOUTH KOREA, July 15, 2024 /EINPresswire.com/ -- [Penta Security](#), a leading global provider of web, data, and IoT security solutions, proudly announces its strategic partnership with [Version 2 Digital](#), a dynamic IT company based in Hong Kong. This partnership aims to strengthen Penta Security's presence in the Asian market by leveraging Version 2's extensive sales network to distribute WAPPLES, Penta Security's Web Application & API Protection (WAAP) solution, across Hong Kong, Macau, Taiwan, and Singapore.

Carlos Cheng, Founder and Managing Director of Version 2 Digital, expressed his excitement about the partnership: "We are honored to collaborate with Penta Security, a leader in cybersecurity. This partnership will enable us to bring advanced security solutions to our diverse client base, helping them safeguard their digital assets against the increasing threats in the cyber landscape."

Ian Choi, Head of Global Business at Penta Security, added, "Partnering with Version 2 allows us to leverage their extensive network and expertise in the IT industry. Together, we aim to deliver unparalleled security solutions and services to businesses and consumers across these regions. We look forward to continuous collaboration to generate synergies not only in the security industry but also in the encryption business sector."
