

Sarban by Aida Mehranfar Wins Iron A' Design Award in Fashion and Travel Accessories Design Category

Handcrafted leather bag inspired by Iranian architecture honored for its unique design and craftsmanship in the A' Fashion and Travel Accessories Design Awards

COMO, CO, ITALY, July 12, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of accessory design, has announced [Sarban](#), a handcrafted leather bag designed by [Aida Mehranfar](#), as the winner of the Iron A' Design Award in the Fashion and Travel Accessories Design category. This prestigious recognition highlights the significance of Sarban's unique design and exceptional craftsmanship within the accessory industry.

Sarban

Sarban's award-winning design showcases the beauty and cultural heritage of Iranian architecture, making it highly relevant to fashion enthusiasts seeking meaningful and distinctive accessories. By combining traditional art with modern design elements, Sarban appeals to a wide range of customers who appreciate both style and cultural significance in their fashion choices.

Inspired by the Sarban Minaret in Isfahan, Iran, the leather bag features geometric shapes and a brick-like color that resemble the minaret's design. The use of camel leather not only adds durability to the product but also symbolizes the minaret's function as a guide for camels and caravans. Sarban's design is a testament to Aida Mehranfar's meticulous attention to detail and her ability to transform architectural elements into a functional and visually appealing accessory.

Winning the Iron A' Design Award serves as a motivation for Aida Mehranfar and her brand, Fida, to continue their pursuit of excellence in accessory design. This recognition may inspire future projects that further explore the integration of cultural heritage and modern design, leading to even more innovative and meaningful creations within the fashion industry.
