

Empowering Teachers with Better Health Insurance Options

As healthcare costs continue to rise, Revolt Healthcare Alliance offers innovative solutions that help teachers save significantly on their health insurance.

FRISCO, TEXAS, UNITED STATES, July 17, 2024 /EINPresswire.com/ -- As healthcare costs continue to rise, <u>Revolt Healthcare Alliance</u> offers innovative solutions that help teachers save significantly on their health insurance. With changes to TRS benefits and ongoing improvements in Revolt's offerings, teachers have more options than ever to manage their healthcare expenses effectively.

Unmasking the Cost Burden on Teachers:

The cost of health insurance for teachers can vary significantly, with many districts offering limited contributions toward family premiums. For example, Texas teachers have seen an increase in premiums, often paying around \$1,400 per month for family plans through TRS ActiveCare. Revolt

Healthcare Alliance provides alternatives that can reduce these costs by offering private health insurance plans at 40%-50% lower premiums.

<u>Texas teacher</u>, Sarah, was paying nearly \$1,300 per month to cover her family's premiums through TRS. By consulting with a Revolt Healthcare agent and discovering that her district was

not contributing to her dependents premium, she moved them to a private healthcare plan with Revolt Healthcare Alliance costing only \$521 per month. Because her district contributed significantly to her premiums, Sarah stayed on her TRS plan for only about \$20 per month. This switch saved Sarah's family nearly \$760 per month, translating to over \$9,000 in annual savings.
