

The Brookbush Institute Announces Innovations in Occupational Therapist Continuing Education

Occupational Therapists can earn AOTA-approved CEUs & simultaneously earn manual therapy and corrective exercise certifications; all included in membership.

NEW YORK, NY, UNITED STATES, July 16, 2024 /EINPresswire.com/ --

The Brookbush Institute is the first comprehensively evidence-based education program designed to fit your lifestyle, and it is all available with an affordable Netflix-like monthly membership plan."

Dr. Brent Brookbush, CEO of Brookbush Institute

[The Brookbush Institute offers more than 130 AOTA-approved courses](#) for continuing education credits (CECs) for occupational therapist (OT) license renewal. And, if you also hold a CPT, LMT, ATC, DC, or PT license, courses will also satisfy your CE needs. Every Brookbush Institute course is developed from comprehensive systematic research reviews in pursuit of an evidence-based, systematic, integrated, patient-centered, and outcome-driven approach. We are not interested in building orthopedic physical rehabilitation and human performance models that simply "work." We have spent more than a decade developing a comprehensive model in pursuit of what "works best." It is our mission to optimize

the delivery of education based on models that deliver unparalleled outcomes.

Every course simultaneously counts toward CEUs for license renewal and one of our industry-leading certifications: [Integrated Manual Therapist \(IMT\)](#) Certification, [Human Movement Specialist \(HMS\)](#) (our Corrective Exercise Certification), and Certified Personal Trainer (CPT) Certification. Further, every course can be completed on desktop or mobile and includes multiple formats (live webinar with close-captioning, recorded videos with written instructions, text and illustration, audio-voice-over, practice exams, credit-worthy final exams, and certificates).

WHY THE BROOKBUSH INSTITUTE?

- Expect More: All Brookbush Institute courses are pre-approved for CECs for OT state license renewal. Additionally, if you hold a DPT, CPT, LMT, ATC, or DC license, our courses will meet your CEC needs. Our flexible online education platform allows you to complete every course on

desktop or mobile. Each course includes multiple formats for optimal learning: live webinars, recorded videos, text and illustrations, audio voice-overs, practice exams, credit-worthy final exams, and certificates. Enjoy a seamless, comprehensive educational experience with Brookbush Institute.

- Unparalleled Accuracy of Information: The Brookbush Institute is the only comprehensively evidence-based education platform in the industry. We know that our colleagues want to be better, help more, and deliver unparalleled results, so they need the most accurate information available.

The most accurate information can only be achieved with a systematic approach to developing evidence-based courses. That is why every course we offer is built from a systematic review of all available peer-reviewed and published research, with a focus on improving practical application. With the Brookbush Institute, you never have to decide which "expert opinion" you "believe" when two or more courses contradict (which is all too common on other platforms). Although science slowly evolves over time, and our conclusions may be refined, you can be assured that the content we provide is the most well-supported conclusion that could be developed at the time of publication, based on research and outcomes, not expert opinion.

- Designed to be the Education Platform All of Wish Existed: All Brookbush Institute certifications are offered with an innovative system of modular courses, iterative testing, and credits (no summative final exam). Our courses include video, illustrations, audio, and text to ensure the learner has the format that they prefer wherever they are. Listen to courses in the car, watch close-captioned videos during breaks at work, or study the text and take notes at home. We are also incredibly passionate about making it comfortable to study from your phone so that you can sneak in study time at any time. Our goal is to develop the most accessible, flexible, and convenient education platform ever.

- Affordability and Access are Part of our Mission: We are the only education provider in the industry to include our certifications in a true monthly (or yearly) membership plan. This reduces the initial cost of certification to just 3 - 5% of comparable certifications, and you can cancel anytime.
