- 3) By End User: Hospitals and Clinics, Surgical Centers, Other End-Users

Geographical Insights: North America Leading The Market

North America was the largest region in the bone grafts and substitutes market in 2023.

Bone Grafts and Substitutes Market Definition

Bone grafts and substitutes refer to a procedure in which bone defects are filled with bone grafts or with bone graft substitutes. Bone abnormalities that necessitate bone grafting are common in trauma and orthopedic operations. Bone grafting can be described as the envelopment and interdigitation of the donor bone tissue with the new bone deposited by the recipient. It is versatile, replaces the lost bone tissue, and enhances bone growth using natural mechanisms. The bone grafts and substitutes are used to replace and regenerate the lost bone, and can also restore proper facial contour.

[Bone Grafts and Substitutes Global Market Report](#) 2024 from The Business Research Company covers the following information:
