Constipation Laxative Global Market Report 2024 –  
Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, July 22, 2024 /EINPresswire.com/ -- The [global constipation laxative market](#) is projected to grow from \$6.60 billion in

2023 to \$7.00 billion in 2024, reflecting a compound annual growth rate (CAGR) of 6.1%. This growth is driven by increasing numbers of elderly individuals, rising awareness about digestive health, easier access to laxatives, and the growing prevalence of gastrointestinal diseases. The market is anticipated to expand further, reaching \$8.89 billion by 2028, at a CAGR of 6.2%. This

upward trend is supported by greater recommendations from healthcare professionals, regulatory changes, growth in the functional foods market, improved availability of laxatives, and the rise of e-commerce platforms.

Increasing Prevalence of Constipation Drives Market  
Expansion

The rise in constipation cases is a key factor propelling the

growth of the constipation laxative market. Constipation, characterized by infrequent bowel movements and difficulty passing hard stools, is becoming more common due to changes in dietary habits, sedentary lifestyles, inadequate fluid intake, and certain medical conditions. Laxatives play a crucial role in alleviating constipation by stimulating bowel movements or softening stools. A recent survey in Saudi Arabia revealed that 71.2% of participants experienced constipation, highlighting the significant demand for effective laxative solutions.
