#### Featured Tarp Products:

1. TARPMASTER ELECTRIC TARP SYSTEM (5-SPRING, UP TO 26') TM500 - The TarpMaster® 500 Series electric tarp system from Roll-Rite is designed to fit most multi-axle industry standard dump trucks from end dumps to stone slingers, grapple trucks, or silage trucks up to 26' in length. This tarp system was engineered with quality and durability in mind, with components tough enough for the demands of tarping municipal trucks or any other commercial or industrial job. The TM500 TarpMaster® series is available in either a side mount or underbody mount pivot.

#### 2. SUPER TOUGH MESH TARPS

- These Super Tough Mesh Tarps from Roll-Rite are ideal for hauling challenging scrap, construction, and demolition materials due to their unique construction. Made from high-quality 16oz material with a durable 7x7 weave and UV-protected strands, these tarps are resistant to tearing and ripping, making them perfect for demanding tasks. The body of the tarp is not

bound together, allowing the material to flex and move as the tarp rolls over the load, reducing the chance of rips or snags.

### 3. TARPMASTER ELECTRIC TARP SYSTEM (3-SPRING, UP TO 16') TM300

- The TarpMaster® 300 Series electric tarp system from Roll-Rite is designed to fit most industry standard single axle dump trucks up to 16' in length. This tarp system was engineered with quality and durability in mind, with components tough enough for the demands of tarping municipal trucks or any other commercial or industrial job.
