

# Boston Hemp Inc. Announces Nationwide Shipping of THCa Products in Compliance with the 2018 Farm Bill

---

HANOVER, MASSACHUSETTS, UNITED STATES, July 24, 2024 /EINPresswire.com/ -- Boston Hemp Inc., a leader in the hemp industry, proudly announces the nationwide shipping of its new line of THCa products. This exciting development comes in the wake of the 2018 Farm Bill, which legalized THCa and other hemp derivatives, paving the way for innovative product offerings and enhanced consumer access.

The 2018 Farm Bill, a landmark piece of legislation, removed hemp and its derivatives from the list of controlled substances, provided they contain no more than 0.3% THC. This legal framework has allowed Boston Hemp Inc. to develop and distribute a range of THCa products that meet federal standards, ensuring both safety and compliance.

"We are thrilled to offer our premium THCa products to customers across the United States," said Giovanni Malaspino, COO of Boston Hemp Inc. "The passage of the 2018 Farm Bill has opened new opportunities for the hemp industry and for consumers seeking natural, hemp-derived products. Our THCa offerings are crafted with the highest quality standards, and we are committed to providing exceptional products that our customers can trust."

Boston Hemp Inc.'s THCa product line includes a variety of forms to suit different preferences and needs, such as:

- THCa Flower: Hand-trimmed and carefully cultivated, offering a natural and potent experience.
- THCa Pre-Rolls: Convenient and ready-to-use, perfect for on-the-go enjoyment.
- THCa Concentrates: High-potency extracts for those seeking a more concentrated form of THCa.

Each product undergoes rigorous third-party lab testing to ensure purity, potency, and compliance with the 2018 Farm Bill regulations. Boston Hemp Inc. prides itself on transparency and quality, providing detailed lab results for every batch of THCa products.

Customers nationwide can now order Boston Hemp Inc.'s THCa products through the company's website, with shipping available to all 50 states. The company remains committed to educating

consumers about the benefits and uses of THCa, as well as advocating for the continued growth and acceptance of hemp and cannabis products in the market.
