

# Biodegradable Mulch Films Market Segments, Drivers, Restraints, And Trends For 2024-2033

*The Business Research Company's Biodegradable Mulch Films Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK, July 25, 2024 /EINPresswire.com/ -- The biodegradable mulch films market has experienced robust growth in recent years, expanding from \$44.09 billion in 2023 to \$47.87 billion in 2024 at a

compound annual growth rate (CAGR) of 8.6%. The growth in the historic period can be attributed to growing consumer demand for organic and sustainably grown produce, the rise in global population has increased the demand for food, the increasing adoption of bio-based products, the high demand for starch as a key component in biodegradable materials, and the need for high crop yield.

### Major Players And Market Trends

Key players in the biodegradable mulch films market include BASF SE, Mitsubishi Chemical Corporation, Berry Global Group, Mondi Group, Kuraray Co. Ltd., Napco National, RKW Group. Major companies operating in the biodegradable mulch film market are developing sustainable alternatives, such as sustainable compostable kraft paper mulch, to advance their offerings and increase brand reach. Compostable Kraft paper mulch is an environmentally friendly mulching material made from kraft paper that decomposes naturally, contributing to soil health and sustainability efforts.

### Segments:

- 1) By Biodegradable Plastic: Thermoplastic Starch (TPS), Aliphatic-Aromatic Copolyesters (AAC), Controlled Degradation Masterbatches
- 2) By Composition: Starch, Starch Blended With Polylactic Acid (PLA), Starch Blended With Polyhydroxyalkanoate (PHA)
- 3) By End-Use Industry: Horticulture, Agriculture

### Geographical Insights: North America Leading The Market

North America was the largest region in the biodegradable mulch films market in 2023. Asia-Pacific is expected to be the fastest-growing region in the forecast period. The regions covered in the biodegradable mulch films market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

### Biodegradable Mulch Films Market Definition

Biodegradable mulch films refer to agricultural coverings made from materials that decompose naturally in the environment. It is used in agriculture to cover the soil around plants. They help in weed suppression, moisture retention, and temperature regulation while decomposing naturally over time, reducing plastic waste and promoting soil health.

[Biodegradable Mulch Films Global Market Report 2024](#) from The Business Research Company covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America,

USA, South America, Middle East and Africa.

- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Biodegradable Mulch Films Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on [biodegradable mulch films market size](#), biodegradable mulch films market drivers and trends, biodegradable mulch films market major players, biodegradable mulch films competitors' revenues, biodegradable mulch films market positioning, and biodegradable mulch films market growth across geographies. The biodegradable mulch films market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
