## Growth Driver Of The Bed Head Panel Market

An increase in hospitalization rates is expected to propel the growth of the bed head panels market going forward. Hospitalization is the process of admitting a patient to a hospital for medical care, observation, treatment, or surgery that cannot be provided on an outpatient basis. Hospitalization rates are rising due to an aging population and the increasing prevalence of chronic diseases. Bed head panels streamline patient care during hospitalization by integrating

essential medical utilities such as electrical outlets, gas supplies, lighting, and communication systems behind hospital beds.
