

# Chemotherapy At Home Services Market Analysis With Opportunity Segments For 2024-2033

*The Business Research Company's Chemotherapy At Home Services Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033*

LONDON, GREATER LONDON, UK, July 26, 2024 /EINPresswire.com/ -- The chemotherapy at home services market has experienced robust growth in recent years, expanding from \$1.58 billion in 2023 to \$1.75 billion in 2024

at a compound annual growth rate (CAGR) of 11%. The growth in the historic period can be attributed to increased cancer incidence, growing patient demand for receiving care at home, hospital capacity constraints, improved home healthcare infrastructure, and supportive government policies.

## Strong Future Growth Anticipated

The chemotherapy at home services market is projected to continue its strong growth, reaching \$2.68 billion in 2028 at a compound annual growth rate (CAGR) of 11.2%. The growth in the forecast period can be attributed to rising healthcare costs, aging population, expansion of home healthcare services, increased focus on patient-centric

care, increased need to reduce inpatient stays and chronic disease management.

## Growth Driver Of The Chemotherapy At Home Services Market

The increased prevalence of cancer is expected to propel the growth of the chemotherapy-at-home services market going forward. Cancer is a disease characterized by the uncontrolled

growth and spread of abnormal cells in the body. There is an increased prevalence of cancer due to several factors such as aging populations, lifestyle changes, environmental exposures, genetic predispositions, and increased detection through advanced diagnostic techniques.

Chemotherapy at-home services allow cancer patients to receive treatment in the comfort of their own homes, improving convenience and quality of life.
