Montgomery Robbins, Inc. Shares Current Trends for Innovative Outdoor Spaces Designed For Play

ALAMO, CA, UNITED STATES, November 20, 2024 /EINPresswire.com/ -- Today's outdoor spaces are no longer just about relaxation—they're dynamic environments designed to entertain, inspire, and bring people together. From [family-friendly play](#) areas to sophisticated sports courts, [landscape architects](#) are crafting imaginative retreats that transform backyards into vibrant hubs of activity and fun.

Entertainment Meets Elegance

“

Montgomery Robbins, Inc. creates unparalleled outdoor spaces that inspire and last. With decades of experience, we have it down to an art.”

John Montgomery

Modern outdoor play-spaces often integrate seamlessly with entertainment areas, offering activities for both kids and adults. Features like bocce courts, horseshoe pits, and dartboards are increasingly popular, doubling as attractive landscaping elements while adding a playful touch to gatherings. “These additions are great for bringing people together,” says John Montgomery, Founding Landscape Architect of Montgomery Robbins, Inc. “They enhance the ambiance while giving guests something interactive to enjoy.”

Courts, Greens, and Beyond

For sports enthusiasts, the possibilities are endless. Golf putting greens, basketball courts,

cricket pitches, and multi-use lawns scaled for various sports are among the many options available. Faux turf golf greens have gained traction for their low maintenance and surprising realism. “The technology has come a long way,” notes Montgomery. “With no watering, mowing, or weeds, it’s an ideal choice for many busy clients.”

High-tech solutions, like golf simulators, are also becoming sought-after additions for those who want to practice their swing or enjoy indoor-outdoor sports experiences year-round.

Kid-Friendly Landscapes

For families, creating spaces for children is all about fostering adventure and imagination. “Kids will find play-spaces anywhere,” Montgomery says. “We aim to design landscapes that encourage them to stay active and engaged while enjoying the outdoors.”

From climbing-friendly trees and “secret” garden nooks to play areas designed for creative and safe exploration, the focus is on balancing fun with functionality. Spaces for gardening, bug-catching, and hammocks add a quieter charm, offering kids opportunities to connect with nature in simpler ways.

The Sky’s the Limit

Landscape Architects thrive on pushing creative boundaries. Recent projects have included beach-inspired pool entrances perfect for sandcastles, bespoke treehouses, labyrinths winding around historic oaks, and even outdoor movie theaters. “Our clients’ wildest dreams often inspire us,” says Montgomery. “It’s all about creating spaces that are as unique and imaginative as the people who use them.”

With these innovative designs, staying home has never been more appealing. Whether it’s a sophisticated entertainment space or a whimsical play area, today’s outdoor retreats are

designed to make every moment memorable.
