

Jenga by Kris Lin Wins Gold in A' Architecture Awards

Innovative Community Public Building Design Recognized for Excellence by Prestigious International Jury

COMO, CO, ITALY, July 27, 2024

/EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [architecture](#) design, has announced [Kris Lin](#) as a winner in the Architecture, Building and Structure Design category for the innovative work titled "Jenga." This prestigious recognition positions Jenga as a standout design within the competitive Architecture industry, showcasing its exceptional merits and functionality.

Jenga's award-winning design holds significant relevance for the Architecture industry and its

stakeholders. By cleverly integrating multiple functions into a cohesive and visually striking structure, Jenga sets a new standard for community public buildings. This innovative approach aligns with current trends in architecture that prioritize multifunctionality, efficiency, and aesthetic appeal, making Jenga a valuable case study for professionals and enthusiasts alike.

Drawing inspiration from the childhood game of building blocks, Jenga masterfully stacks and reorganizes four main functional areas—commercial space, lobby, community office, and equipment room—into a unified whole. The design overcomes spatial constraints through its creative use of modular steel construction and bendable aluminum plating, resulting in a lightweight and dynamic structure that evokes a sense of playfulness and warmth. Rounded curves soften the building's outline, enhancing its overall visual appeal and integration with the surrounding community.

Jenga

The recognition bestowed by the A' Architecture, Building and Structure Design Award serves as a catalyst for Kris Lin and their team to continue pushing the boundaries of architectural design. By showcasing the potential of modular construction and multifunctional spaces, Jenga inspires future projects to embrace innovation and efficiency without compromising on aesthetics or functionality. This award reinforces Kris Lin's commitment to delivering cutting-edge designs that enhance communities and elevate the built environment.

About Kris Lin

Kris Lin, hailing from China, established the "KLID Design Office" in Shanghai in 2001 to focus on interior design for architecture. With a strong foundation in the Chinese market, Kris Lin brings a unique perspective and expertise to the field of architectural design.

About Kris Lin International Design

Kris Lin International Design distinguishes itself as one of the few firms in China offering comprehensive services spanning architecture, interior design, soft decoration design and implementation, and landscape planning. The company's design philosophy, "innovation through mastery, with a methodical approach to observation," underscores its dedication to delivering exceptional design works that showcase its expertise and creativity.

About Golden A' Design Award

The Golden A' Design Award is a prestigious recognition granted to designs that exhibit a high degree of innovation, skill, and impact within the Architecture, Building and Structure Design category. Winning designs are selected through a rigorous blind peer-review process, where a panel of expert jury members evaluate entries based on pre-established criteria such as innovative use of space, structural integrity, aesthetic appeal, environmental impact, and social relevance. By recognizing and promoting these outstanding designs, the A' Design Award aims to encourage further innovation and inspire future generations of architects and designers.

About A' Design Award

The A' Architecture, Building and Structure Design Award is a prestigious international design competition that recognizes exceptional architectural projects from a diverse range of participants, including renowned architects, engineering firms, construction companies, and influential brands. By participating in this award, entrants gain global recognition for their innovative design solutions and superior skills, ultimately contributing to the advancement of the architecture and design fields. The A' Design Award, now in its 16th year, is driven by a philanthropic mission to enhance society through the power of good design, promoting projects that positively impact the global community.
