Music Release Announcement from Deep Rooted Hard Rock Vocalist Sparks Excitement for Live Performances by Denver Band Lightnin' Stik

DENVER, CO, US, July 29, 2024

/EINPresswire.com/ -- Long time traveling musician, Rick Williams, has stepped back into the studio to record a new single after a much anticipated full album release took a slight detour when Sony Music Group agreed to accept a demo of sixteen unreleased originals for their review. A full album release was expected to become

available to fans in late 2024, when Denver based band, Lightnin' Stik, was slated to perform new and previously released singles at festivals across the United States. The group does agree, however, that patience could pay off with the major record label commercially reaching far more fans, resulting in the album climbing the charts, worldwide. The new single, Embrace, is scheduled to hit stores later this year in its place. Mean while, Bring a Little Dance, has just been released on both: YouTube [@LightninStik](#) and [LightninStik.com](#).

“

we are in a time where our country is in need of healing and it only feels right that a song like "Embrace" should be released, right now.”
