

Global Aircraft Transparencies Market Overview And Statistic For 2024-2033

The Business Research Company's Aircraft Transparencies Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UK, July 29, 2024 /EINPresswire.com/ -- The [global aircraft transparencies market](#) is projected to grow from \$1.28 billion in 2023 to \$1.38 billion in 2024, at a

compound annual growth rate (CAGR) of 8.1%. Despite the challenges faced, the market is anticipated to reach \$1.82 billion by 2028 at a CAGR of 7.2%, driven by increasing market expansion in emerging economies and the rising number of air passengers.

The aircraft transparencies market size is expected to see strong growth in the next few years. It will grow to \$1.82 billion in 2028 at a compound annual growth rate (CAGR) of 7.2%."

The Business Research Company

Rising Number of Air Passengers Drives Market Growth

The rising number of air passengers is a significant factor contributing to the growth of the aircraft transparencies market. Aircraft transparencies, including windshields, windows, canopies, and other transparent materials, are essential for aviation safety, functionality, and passenger comfort. For instance, according to the International Air Transport Association (IATA), there will be 4.0 billion passengers worldwide in 2024, reaching pre-COVID-19 levels. This increase in air passengers is expected to drive the demand for aircraft transparencies.

Key Players and Market Trends

Major companies operating in the aircraft transparencies market include General Electric Company, Compagnie de Saint-Gobain S.A., Honeywell International Inc., Eaton Corporation PLC, Thales Group, and PPG Industries Inc. These companies are focusing on developing transparent

conductive films to gain a competitive edge. For instance, in May 2022, CHASM Advanced Materials launched AgeNT transparent conductive films for display shielding applications, providing superior transparency and RFI/EMI protection.

Segments:

- By Material: Polycarbonate, Acrylic, Glass
- By Aircraft Type: Military Aviation, Business and General Aviation, Commercial Aviation
- By Application: Skylights, Landing Lights and Wingtip Lenses, Chin Bubbles, Canopies, Windows, Cabin Interiors, Windshields
- By End User: After Market, OEM (Original Equipment Manufacturer)

Geographical Insights: North America Leading the Market

North America was the largest region in the aircraft transparencies market in 2023. The region is expected to maintain its leading position due to strong demand from both military and commercial aviation sectors.
