FMCG B2B e-Commerce Market, 2024

Download Sample Report: <https://www.alliedmarketresearch.com/request-sample/29383>

“

The offline retailer segment was the highest contributor to the market, with \$147.4 billion in 2021, and is estimated to reach \$371.2 billion by 2031, at a CAGR of 9.7% during the forecast period.”

Roshan Deshmukh

An FMCG B2B e-commerce is an online platform that assists innumerable sellers and countless B2B buyers to e-commerce FMCG products. In addition, FMCG is one of the diverse industries driven by market shifts, price sensitivity, and consumer demand. Incorporating e-commerce in this industry has added value to the B2B business and is expected to have huge growth during the FMCG B2B e-Commerce market forecast period.

In addition, growth of digitization in the FMCG B2B e-commerce business leads to sustainability in the market

and creates huge FMCG B2B e-commerce market opportunities across the globe. This is attributed to the reason that involvement of online practice across the globe in B2B business has

promoted direct trading between buyers and sellers without the engagement of middlemen in the marketplace. Also, incorporating AI and IOT in B2B e-commerce is one of the [FMCG B2B e-commerce market trends across the globe](#). Moreover, transaction through an online platform directly to product sellers and reduces the cost of the actual product, which aids to sustain business in the long run.

The FMCG B2B e-commerce market is segmented on the basis of product type, end user, and region. On the basis of product type, the market is categorized into home care, foods & beverages, personal care & cosmetics, healthcare, and others. On the basis of home care, the market is further divided into cleaning products, fragrance, and others. On the basis of food & beverages, it is segmented into bottled water, juices & drinks, tea & coffee, fresh food, frozen food, processed & packaged food, and others. By personal care & cosmetics, the market is divided into body care, hair care, oral care, skincare, and baby care. On the basis of healthcare, it is bifurcated into over-the-counter (OTC), vitamin & dietary supplements, feminine care, and others. The others segment is categorized into pet food and stationery.

On the basis of end user, the market is divided into offline retailers, distributors, food service, specialty stores, hypermarkets/supermarkets, and others. Region wise, it is analyzed across North America (the U.S., Canada, and Mexico), Europe (Germany, France, the UK, Italy, Spain, the Netherlands, and rest of Europe), Asia-Pacific (China, Japan, India, South Korea, Australia, Thailand, and rest of Asia-Pacific), and LAMEA (Brazil, South Africa, Saudi Arabia, the UAE, Argentina, and Rest of LAMEA).

On the basis of product type, the personal care and cosmetic segment was valued at \$141.5 billion in 2021, and is expected to reach \$351.6 billion by 2031 at a CAGR of 9.6%. This is majorly attributed to factors such as associating personalized experience in a wide range of cosmetic products such as eye liners, lipsticks, and nail paints through digital innovation, which boosts demand for market.

On the basis of end users, the FMCG B2B e-commerce for offline retailers is expected to grow at a CAGR of 9.7% during the forecast period. The offline retailers segment shares largest revenue in this segment, owing to increase in prevalence of digitalization in B2B business making the commerce of products a seamless experience likely to propel the demand in the market.

Based on region, Asia-Pacific held the highest market share in terms of revenue in 2021, accounting for nearly two-fifths of the global FMCG B2Be-commerce market, and is likely to dominate the market during the forecast period. Moreover, the same region is expected to witness the fastest CAGR of 9.6% from 2022 to 2031. Increase in spending capabilities. This is due to the widely scattered manufacturing units and businesses, prevalence of numerous B2B e-commerce sites that offers varieties of products to B2B consumers across the globe, and

expansion of enterprises and development of technology in developing economies in the region.

Growth in demand for optimization in supply chains, cost-effective resources as well as tailored logistics in the FMCG industry enables the scope for development in the FMCG B2B e-commerce market. Evolving customer base also broadens trading of FMCG products through B2B companies to meet demand in the FMCG B2B e-commerce market. Digital innovation is also one of the key factors for increase in number of B2B business across the globe in the FMCG industry, which propels the FMCG B2B e-commerce market. A transition toward e-commerce by B2B players in the FMCG industry is expected to have immense potential for FMCG online trade expansion in this market.
