This pioneering initiative promises to transform the pizza business model, providing unprecedented benefits for both pizzerias and their loyal customers.

## REDEFINING LOYALTY AND UPFRONT CAPITAL WITH YEARLY PIZZA SUBSCRIPTIONS

In an era where subscription services, from Netflix to Spotify, dominate industries, PizzaBox AI, leveraging advanced AI technology powered by RestoGPT, introduces a subscription model that guarantees pizzeria customers a weekly pizza for an entire year. This innovative approach not only ensures a steady stream of delicious pizza for customers but also provides pizzerias with a significant financial boost and a loyal customer base.

## A WIN-WIN FOR PIZZERIAS AND CUSTOMERS

Pizzerias can sell annual subscriptions at \$197 each, offering customers one medium pizza per week for 52 weeks. This model addresses several challenges pizzerias face today, including customer acquisition and retention, cash flow issues, low order frequency, and high competition. By selling up to 1,000 subscriptions, a pizzeria can raise \$197,000 upfront, with zero interest,
