

Mesothelioma Compensation Center Urges a Former Chemical Plant Worker with Mesothelioma Anywhere in the USA To Call Them for Advice & Access to the Nation's Top Lawyers-Compensation Might Be Millions of Dollars

WASHINGTON , DC, USA, July 30, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- The

Mesothelioma Compensation Center says, "We are the dominant resource in the nation for chemical plant and power and energy workers who have developed mesothelioma and we are appealing to a person like this who has just been diagnosed with this rare cancer or their immediate family to call us anytime at 866-714-6466. We are advocates-not a law firm, our service is free, and we want people like this to receive the best compensation results. We have a nearly 20-year track record.

"Of all workplaces in the United States before 1982 a chemical plant, oil refinery, shipyard workers and Navy Veterans probably had more asbestos exposure than any other type of workplaces. Individuals who maintained or were responsible for making repairs on a chemical plant in the 1960s, or 1970s probably had as much exposure to asbestos as a shipyard worker. Skilled trades workers or specialists that were experienced were in high demand and it would not have been uncommon for a person like this to have worked in more than one oil refinery or in more than one state.

"If the person we have just described sounds like your husband or dad, and he has just received news of a confirmed mesothelioma diagnosis anywhere in the United States please call us at 866-714-6466. No other group will be as honest with you, and no other group can produce our kind of results."

Suggestions from the Mesothelioma Compensation Center for people with mesothelioma nationwide on how to increase potential financial compensation:

*"Do you recall the specifics of how you were exposed to asbestos at work, in the military or both-and when this exposure occurred? This is incredibly important information.

“

"If the person we have just described sounds like your husband or dad, and he has just received news of a mesothelioma diagnosis anywhere in the United States please call us at 866-714-6466."

Mesothelioma Compensation Center

* "Do you recall the names of coworkers who might have witnessed your exposure to asbestos? An eyewitness to your asbestos exposure might increase your compensation.

*"Did you have more than one job where you might have been exposed to asbestos on the job?

*"Do your medical records include a biopsy that confirms the mesothelioma or asbestos exposure lung cancer?

* "Has your loved one's doctor told you that mesothelioma is a distinct possibility-but because they are so sick-weak-a

biopsy to confirm the mesothelioma is not possible? If this is your loved one, please call us at 866-714-6466." <https://MesotheliomaCompensationCenter.Com>

Important Note: "We have been assisting power, energy and skilled trades workers with mesothelioma for nearly two decades throughout the USA-and to make sure the best compensation happens for the person with this rare cancer we offer direct access to the nation's

most skilled mesothelioma attorneys. For more information a power-energy-or skilled trades worker with mesothelioma or their family members are welcome to call us anytime at 866-714-6466." <https://MesotheliomaCompensationCenter.Com>
