toward well-being, designing future society, achieving the SDGs, and providing solutions to society's problems. "Awaji Well-being Business Contest 2024" will feature a pitch event in which entrepreneurs and startup companies will pitch business ideas themed on "body", "mind", and "bonds". Winners of the Grand Prize and Excellence Award will receive support from Pasona Group through business partnerships developed on Awaji Island as well as support with commercializing pitch ideas through proof-of-concept demonstrations.

Joint partner for this event is MIRACLE (representative corporation: SUNDRED Corporation), originated by Dr. Yoshiki Sawa, a leading expert in the field of regenerative medicine using iPS cells and Professor Emeritus at Osaka University, who is also involved in startup incubation in healthcare and other fields.

* "Well-being" refers to "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity" (as defined by the World Health Organization).

☐ Pasona Group Pavilion "PASONA NATUREVERSE" Concept

Pasona Group's job is to harness the potential of the individual. We aim to help build a society in which everyone can flourish in good health and vibrance.

"Thank You, Life."

We want to create a world where life is respected; a world enveloped in gratitude for life, from children to the elderly, among all people across the world. Our society is a part of the natural world, and humanity's continued existence is thanks to nature. However, at some point, we began to take nature for granted. Have we forgotten to be grateful? Giving thanks to each other, to the rich blessings bestowed upon humanity by nature, and for the fact that we are alive right now. We want to create a new world in which these expressions of thanks resonate and are passed down to the next generation.

We hope that many people from all over the world will visit our pavilion and become future creators of a world which reverberates with gratitude, and work with us to create the "NATUREVERSE" (Nature×Universe). This is the hope of Pasona Group.

☐ Main Themes

(1) Body: Medical / Food

Creating a healthy body through the latest medical care and food.

☐ As Executive Producer of the pavilion, Pasona Group welcomes Dr. Yoshiki Sawa, Professor Emeritus of Osaka University and leading expert in regenerative medicine using iPS cells.

(2) Heart: Life Purpose / Compassion

Now is the time to create a spiritually rich society in which everyone can think about their future based on the spirit of "compassion", and which is full of diversity and purpose in life.

(3) Bonds: Work / Mutual Aid

Creating a truly prosperous society in which all people can work vibrantly and live happily, in other words, a "society of mutual assistance" and a "Mutual Society".
