## Strong Future Growth Anticipated

The self service coffee machine market is projected to continue its strong growth, reaching \$9.36 billion in 2028 at a compound annual growth rate (CAGR) of 9.5%. The growth in the forecast period can be attributed to the growing preference for specialty coffee, expansion of coffee shop chains, increasing consumer awareness about sustainable practices, demand for customization in coffee

options, and globalization of coffee culture.

## Growth Driver Of The Self Service Coffee Machine Market

Rising coffee consumption is expected to propel the growth of the self-service coffee machine market going forward. Coffee consumption refers to consuming or drinking coffee as a beverage. Coffee is a popular beverage made from roasted coffee beans, which are the seeds of the coffee plant. Self-service coffee machines play a significant role in coffee consumption by being easily accessible, convenient, and customizable for consumers. Self-service coffee

machines' ease of use, customization options, and wide availability make them popular for coffee consumption in various settings like hotels, restaurants, cafes, workplaces, and others.
