

Gluten-Free Bread Market Is Forecasted To Reach US\$ 1.74 Billion With 9% CAGR By 2034

Growing Intolerance/Allergies towards Gluten to drive the Gluten-free bread Market, states Fact.MR

ROCKVILLE, MD, UNITED STATES, August 1, 2024 /EINPresswire.com/ -- Fact.MR, a market research and competitive intelligence provider – reports that the global [gluten-free bread market](#) would reach US\$ 616.3 Mn in 2022 and have a robust CAGR of 9.3% between 2022 and 2032. Fact.MR states that demand for products like buckwheat bread, millet bread, wheat-

free bread, gluten-free brioche, low-carb gluten-free bread, and gluten-free rye bread is expected to put the gluten-free bread market on the top pedestal in the forecast period. Along these lines, the global Gluten-free bread market is projected to reach US\$ 1.5 Bn by the year 2032.

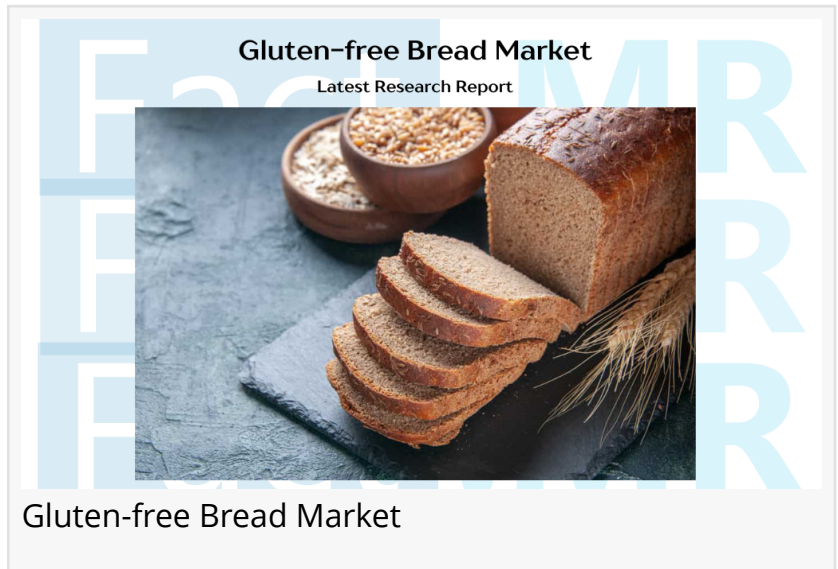

People have been encouraged to adopt more healthful eating habits as a result of the significant changes in eating habits and lifestyles over the past several years, which have also led to a significant rise in lifestyle disorders. There will likely be a positive correlation between rising awareness of gluten sensitivity symptoms and demand for gluten-free baked goods. Throughout the forecast period, it is also anticipated that a greater emphasis on observing gluten intake will support sales of gluten-free bread.
