This study mainly helps understand which market segments or Countries; Insurance carriers, and Aggregators should focus on in years to come to channel their efforts and investments in Instant Payment to maximize growth and profitability. The growth in 2020 is noticeably slower and mature markets in North America and Western Europe require “ heavy lifting” to address such trends due to the dynamic macroeconomic and regulatory environment.

The distribution channels in the insurance industry, are always of great importance, reflecting the “ push” nature of Instant Payment offering in the industry. The distribution model has continued to evolve as insurers try to better connect with their customers. Over the years, the Instant Payment industry has seen a clear dominance of face-to-face selling (agents and brokers). However, with the increasing penetration of the Internet and customers preferring convenience, the digital mode of sales is becoming increasingly popular in Instant Payment.

Furthermore, the years considered for the study are as follows:

Historical year – 2023-2024

Base year – 2024

Forecast period – 2025 to 2031
