Below the graphic, the text reads: "iWTNS - the backseat driver you never knew you needed".

iWTNS provides a comprehensive range of legal services, ensuring that users have the support they need in numerous scenarios, including:

-Workplace Protection: In standard HR meetings, recording is generally not allowed, but with iWTNS they can have their attorney present and record the meeting for their protection. For example, if an employee attends an HR meeting about maternity leave, this recording becomes crucial if the employee is terminated shortly after requesting maternity leave, providing vital evidence in legal disputes.

- Immigrant Support: Immigrants facing legal issues can rely on iWTNS to navigate their situations effectively.

- Civil and Criminal Legal Matters: Our app offers support for all types of legal issues including: landlord/tenant issues, child support disputes, HR problems, custody battles, traffic violations, domestic violence cases, accident or injury situations, property damage claims, and disputes with neighbors.

- Comprehensive Legal Services: iWTNS ensures that every interaction on our app is recorded, securely stored, and never deleted. This guarantees our users have a permanent record of their interactions, providing crucial protection in difficult situations.

Our proprietary matching algorithms connect users with legal representation, revolutionizing the way individuals handle legal challenges. Whether dealing with workplace issues, immigration challenges, or civil disputes, iWTNS is the trusted partner that offers reliable legal support and advocacy.

At iWTNS, we are committed to enhancing transparency between law enforcement and citizens. Our platform is built to ensure that everyone's rights are respected and protected, providing a reliable resource for legal protection and support.
