

New Global Mobile Insights Reports Provide Actionable Information for Middle East & Africa Telecom Decision-Makers

M2Catalyst is on a mission to connect the unconnected and under-connected, to enable remote work, education, and telemedicine throughout the world.

ALISO VIEJO, CALIFORNIA, UNITED STATES, August 14, 2024

[/Einpresswire.com/](https://www.einpresswire.com/) -- M2Catalyst is pleased to announce the release of its comprehensive 2024 Global Mobile Insights reports for countries in the Middle East and Africa.

These reports offer a fresh perspective on 4G/5G mobile quality and traffic to help mobile network operators understand where consumers are connected, under-connected, or unconnected.

“

This information is invaluable for telecom industry-decision makers looking to optimize their networks and bridge the digital divide.”

Mike Brough, Co-Founder and CEO of M2Catalyst

In today's digital age, reliable mobile connectivity is more essential than ever. For mobile network operators striving to bridge the digital divide and improve mobile connectivity for consumers, this data enables them to pinpoint areas that require immediate attention and investment to enhance network infrastructure.

“We are excited to present our latest Global Mobile Insights reports focusing on the Americas region,” said Mike Brough, Co-founder and CEO at M2Catalyst. “These

reports not only highlight where mobile broadband connectivity excels, but also identify areas that may benefit from targeted improvements. This information is invaluable for MNOs looking to optimize their networks and bridge the digital divide.”

With the increasing demand for seamless consumer mobile experiences, particularly in remote

and rural areas, these insights are essential for MNOs aiming to stay competitive and connect the under-connected.

"We encourage MNOs in the Middle East and Africa region to leverage these reports to drive strategic decision-making and accelerate the deployment of robust 4G/5G networks," added Bruce C. Friedman, Co-founder and CFO at M2Catalyst.

The Global Mobile Insights reports for the Middle East and Africa are now available and can be accessed through the M2Catalyst website. For more information on how to obtain these reports and unlock actionable insights, please visit the links below.
