

Global Cane Sugar Market Size, Share And Growth Analysis For 2024-2033

The Business Research Company has updated its global market reports with latest data for 2024 and projections up to 2033

LONDON, GREATER LONDON , UK,
August 23, 2024 /EINPresswire.com/ --

The cane sugar market has demonstrated consistent growth, increasing from \$178.14 billion in 2023

to \$183.07 billion in 2024, with a compound annual growth rate (CAGR) of 2.8%. This historic growth is attributed to factors such as global population increase, cultural and culinary preferences, expansion of the food and beverage industry, industrial applications, and the use of cane sugar as a substitute for artificial sweeteners. Looking ahead, the market is expected to

grow to \$206.95 billion by 2028 at a CAGR of 3.1%, driven by increasing demand for natural ingredients, market expansion in developing regions, growing awareness of sustainable agriculture, and consumer preferences for traditional foods.

Navigating the Growth Surge in the Cane Sugar Industry
Fueled by Escalating Demand for Sugar-Rich Confectionery

Products and Soft Drinks

The rising demand for sugar-rich confectionery products and soft drinks is a significant driver of the cane sugar market. Confectionery products like sweets, chocolates, and chewing gum use cane sugar extensively, enhancing their flavor and texture. According to Farm Credit Canada, sales in the Canadian sugar and confectionery sector grew by 15.0% to \$4.5 billion in 2021, largely due to volume growth and increased manufacturing prices. This trend underscores the growing demand for cane sugar in various confectionery applications.
