

CentiMark Supports Public Safety with Drone Purchases from NPS-DDP.org partners, and Donation of Retired Drones

Making a difference through the purchase and the donation of Life saving drone technology.

HEBRON, CONNECTICUT, USA, September 9, 2024 /EINPresswire.com/ -- [CentiMark](#), a leading North American roofing company with over 100 locations across the United States and Canada, is making a significant impact on public safety. The company recently purchased three brand-new thermal imaging drones through our partners, demonstrating their commitment to innovative technology and community support.

Doing Good is Good Business

“

Our board of directors are so thankful to corporations like CentiMark for recognizing the value of our mission to help support underfunded public safety with life saving drone technology!”

Mark Langley / CEO / Founder

In addition to investing in new equipment, CentiMark is also generously donating their retired drones through the NPS-DDP.org foundation. This initiative will provide valuable resources to public safety agencies, enhancing their capabilities in various operations, including search and rescue, SWAT, and tactical missions. This is not their first donation through our foundation. They've also supported STEM education with older tech.

“At CentiMark we are excited to donate our old drones to programs that matter such as Public Safety and STEM programs through NPS-DDP.org. As we grow and update

our equipment, we hope to continue to donate drones to these programs.” said Keith Collicott, Drone Program Manager, Western Group, CentiMark Corporation.

This initiative by CentiMark highlights how corporations can play a pivotal role in supporting public safety. By purchasing drones through our program or donating retired drones, companies can directly contribute to the safety and well-being of communities nationwide.

The fire department receiving this Drone is a 100% volunteer Fire Department in Derry Township, PA.

If your corporation is interested in supporting public safety through drone purchases or donations, please contact the [National Public Safety Drone Donation Program](#). Together, we can help "Put Eyes In The Sky For Every Department In Need"[™].

This transaction represents a perfect example of how we envisioned this foundation would work. Recycle older technology into a public safety need. While guaranteeing our supporters best possible pricing on any purchase.

CentiMark Supports Public Safety with Drone Purchases

CentiMark is supporting public safety through their purchase of not just one, but a total of three DJI Mavic M3T thermal kits from NPS-DDP.org partners for roof inspections.

Not only did they receive the best possible price and some free accessories, but they also supported underfunded public safety agencies through this purchase.

CentiMark Supports Public Safety with Drone Donations

In addition, CentiMark is donating this retired Mavic Pro to the Derry Township 100% Volunteer Fire Department, located in Latrobe, PA. This will be the department's first drone, thanks to the generosity of CentiMark. And this represents CentiMark's Second donation through our foundation the first one was to youth education STEM program.

Creating a real impact for Public Safety!
