Acclaimed author Terence James has captivated readers with a series of six compelling novels, each weaving together threads of historical events, intense mystery, and intricate plots. Published between October 2020 and October 2023, these novels have established James as a master of historical thrillers and suspense.

Terence James, known for his meticulous research and engaging storytelling, has created a body of work that transports readers to pivotal moments in history while exploring the dark secrets and hidden mysteries that shape our world. His novels have drawn praise for their ability to blend fact with fiction, delivering stories that are as educational as they are entertaining.

The Reinecke Diary Set during the harsh winter of 1944, The Reinecke Diary tells the story of a U-boat commander torn between duty and conscience, as he and his crew become unwilling participants in a war crime. In the present day, the discovery of a German airman's body and a long-lost diary lead Erich Barton on a trail of intrigue and danger, unearthing a dark chapter of history that threatens to unleash a modern-day catastrophe.

The Reinecke Conspiracy is the chilling sequel to The Reinecke Diary. It continues the story as Erich Barton finds himself at the heart of an investigation into a brutal murder linked to the Reinecke affair. As a madman seeks revenge, Barton must race against time to prevent a replay of a horrific historical event with devastating consequences.

In *The Reinecke Enigma*, a group of German tank crew survivors discovers an ancient tomb in the North African desert during World War II, a find that could rewrite history. Decades later, Erich Barton is drawn into a deadly game of cat and mouse as he uncovers a secret that could lead to the final resting place of Alexander the Great. But powerful forces will stop at nothing to keep this discovery hidden.

A mystical event from ancient times reverberates into the modern day in *The Ferryman's Daughter*. Erich Barton is once again thrust into a world of sinister plots and murderous insanity as he unravels the secrets of a lost treasure. This tale of adventure and mystique blends the supernatural with the stark realities of greed and crime.

*The Thala Talisman* takes readers back to 878 AD, where a group of Norse settlers, led by Jarl Leif Olafsson, encounters an ancient evil while seeking peace in Wales. In the present day, Erich Barton becomes embroiled in a murder investigation that reveals a connection to this dark past. The race to unlock the secrets of a thousand-year-old riddle pits Barton against a relentless enemy determined to claim a treasure beyond material value.

Set against the backdrop of the Somme Offensive in 1916, *The Somme Letter* follows a young Welsh soldier's journey to make sense of the madness of war. The letter he carries, unknowingly harboring a destructive secret, sets the stage for a modern-day battle of industrial and political intrigue. Erich Barton must solve the puzzle of this letter before it leads to a catastrophic reckoning.

Terence James's novels are a testament to his ability to craft stories that are both thought-provoking and thrilling. Each book stands alone as a compelling read, but together, they form a rich tapestry of interconnected tales that explore the darker side of history.

All six novels are available for purchase on major online retailers, including Amazon, Barnes & Noble and Waterstones. Readers can also find the books available with independent publishers in the United Kingdom, United States and Canada.

About the Author:

Terence James was a dedicated lecturer in psychology, sociology, and social history until 2020, when the pandemic disrupted his work. Encouraged by his wife Pat, he turned to writing novels, applying his research skills to storytelling. To his surprise, this new venture led to multiple publishing offers.

Pat, whom he first met in the early 1960s and later married in 2010, has been a constant support throughout his writing journey. Her encouragement has been a key inspiration behind his success. Terence James's life is enriched by unique experiences, including encounters with notable figures like Nestor Bokassa and Tathleng, which bring depth to his work.
