The ZONA 1 system, chosen for the conference room, proved to be the ideal choice. Its versatility in dimensions, glass thickness, panel types, and sound transmission class (STC) ratings, combined with the functionality of a movable partition, met the diverse needs of CosciaMoos Architecture. The design features a sliding door single-glazed partition, utilizing 7/16" McGrory fixed glass with a unique fluted pattern, paired with ½" low iron tempered glass doors, creating a space that is both functional and aesthetically pleasing.
