Growth Driver Of The Nicotine Addiction Treatment Market

The rising prevalence of tobacco addiction among teenagers is expected to propel the growth of the nicotine addiction treatment market going forward. Tobacco addiction, also known as nicotine dependency, is the desire to use tobacco in the form of cigarettes, which contain the

highly addictive chemical known as nicotine. Teenagers start smoking at an early age due to its anxiety-relieving and mood-elevating properties and depression. The rising tobacco addiction creates a significant demand for nicotine addiction treatment.
