

ESource Corp Takes Over the #1 Position for Most Advanced L&D Expert Assistant

ESource announced today that it had achieved the #1 position as the most advanced tool for training content development in benchmarking tests.

SPARTA, NJ, UNITED STATES, September 4, 2024 /EINPresswire.com/ -- ESource Corporation, a leader in custom AI training and coaching solutions for training and L&D, announced the results of its latest initiative, the L&D Expert Assistant. In benchmarking results, the tool produced a 96% reduction in courseware, blended learning, and e-learning development times, outperforming traditional development methods and other AI-Enhanced solutions.

“

What started as a project to make our ESource team the most effective source for helping clients with peak workloads has turned into a tool that will revolutionize training organizations immediately.”

*Joe DiDonato, President,
ESource University*

This initiative marks a significant milestone in the company's ongoing commitment to increasing efficiency and effectiveness in the corporate and nonprofit sectors. The tool will now be migrated from internal use only to make it available to corporate training organizations worldwide.

“What started out as a project to make our ESource team the most effective and efficient team our clients could employ to help them with peak workloads, turned into a tool that will help revolutionize how training organizations will operate in the future,” commented Joe DiDonato,

President of ESource AI University, in a recent [blog post](#).

The initiative, designed to streamline processes and boost productivity, has demonstrated exceptional outcomes in its latest release version. By leveraging machine learning and chatbot technology with strategic insights, ESource Corp has successfully achieved up to a 96% reduction in courseware development times and 46 other learning and development tasks. With

development times reaching as much as 35 times faster for [the creation of new course materials](#), the tool promises to provide almost instantaneous relief to overworked training departments in both the public and private sectors.

"We are thrilled to unveil the results of this groundbreaking initiative," said Mike Giambra, CEO of ESource Corporation. "The team has worked tirelessly to develop and implement solutions that not only meet but exceed the expectations of our clients.

The success of this initiative is a testament to our commitment to excellence and our ability to adapt to the ever-evolving needs of the corporate world."

Key highlights of the [benchmark](#) and validations (source: OpenAI. (2024). ChatGPT (4o) [Large language model]. <https://chatgpt.com/c/12a859be-ea88-44b0-b84e-b8c334ee12e1>) include:

Creation of New Course Materials:

- Traditional Methods: 70 hours
- Using AI-Enhanced Methods: 49 hours (1.4x Faster)
