The global acne medication market is segmented on the basis of therapeutic class, formulation, type, acne type, distribution channel, and region. Based on therapeutic class, the market is divided into retinoids, antibiotics, salicylic acid, benzoyl peroxide, and others. The retinoid segment held the largest share in 2019, accounting for nearly one-third of the market. Moreover, the segment is projected to manifest the highest CAGR of 4.6% during the study period.

On the basis of formulation, the market is classified into topical medications and oral medications. The topical segment is expected to register the highest CAGR of 3.9% during the forecast period. Moreover, the segment dominated in 2019, accounting for four-fifths of the market.

Based on type, the market is categorized into prescription medicines and over-the-counter medicines. On the basis of acne type, the market is divided into non-inflammatory acne and inflammatory acne.

The global acne medication market is analyzed across several regions such as Asia-Pacific, LAMEA, Europe, and North America. The market across Asia-Pacific is expected to portray the highest CAGR of 4.9% during the forecast period. However, the market across North America held the largest share in 2019, accounting for nearly half of the market.
